

1. Record Nr.	UNINA9910735778103321
Autore	Buscher Udo
Titolo	Logistics Management : Contributions of the Section Logistics of the German Academic Association for Business Research, 2023, Dresden, Germany // edited by Udo Buscher, Janis S. Neufeld, Rainer Lasch, Jörn Schönberger
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2023
ISBN	9783031381454 3031381459
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (252 pages)
Collana	Lecture Notes in Logistics, , 2194-8925
Altri autori (Persone)	NeufeldJanis S LaschRainer SchönbergerJö
Disciplina	658.5
Soggetti	Industrial organization Industrial management Industrial Organization Industrial Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Acknowledgements -- Contents -- Invited Contribution -- Consolidation-Based Modeling for the Scheduled Service Network Design Problem -- 1 Introduction -- 2 Problem Statement and Time Expanded Network Formulation -- 2.1 Common Notation -- 2.2 Time Expanded Network Formulation -- 2.3 Modeling Limitations -- 2.4 Algorithmic Challenges -- 3 A Consolidation-Based Formulation of the SSNDP -- 3.1 Integer Programming Formulation -- 3.2 Correspondence Between the Two Formulations -- 3.3 Modeling Capabilities -- 3.4 Algorithmic Advantages and Disadvantages for the SSNDP -- 3.5 Consolidation-Based Formulations for Two Variants of the SSNDP -- 4 Conclusions and Perspectives -- References -- Supply Chain Management -- Evaluation of Hydrogen Supply Options for Sustainable Aviation -- 1 Introduction -- 2 Characterization of the Hydrogen Supply Chain -- 2.1 Hydrogen Production and Liquefaction -- 2.2 Hydrogen Transport -- 3 Modeling

and Assessment Approach -- 3.1 Calculation of the Total Expenditures in the Hydrogen Supply Chain -- 4 Case Study: Comparison Supply Options for Green Hydrogen -- 4.1 Supply Chain Configurations -- 4.2 Parametrization. -- 4.3 Results -- 5 Discussion and Conclusion -- Appendix -- References -- Pricing and Greening Level Decisions in a Two-Stage Hydrogen Supply Chain Considering State Subsidies and Taxes -- 1 Introduction -- 2 Literature Review -- 3 The Hydrogen Supply Chain Model -- 3.1 Model Description -- 3.2 Profit Functions -- 4 Solution Approach -- 5 Numerical Example and Sensitivity Analysis -- 5.1 Basic Example -- 5.2 Sensitivity Analysis -- 6 Conclusion -- References -- Green Hydrogen Supply Chains in Latin America - A Research Approach for Partnership Projects with Europe -- 1 Introduction -- 2 Methodology -- 3 Green Hydrogen Supply Chains in Latin America -- 3.1 Green Hydrogen in Argentina. 3.2 Green Hydrogen in Brazil -- 3.3 Green Hydrogen in Chile -- 3.4 Green Hydrogen in Colombia -- 3.5 Green Hydrogen in Mexico -- 4 Green Hydrogen Projects with Latin America and Europe -- 4.1 Latin America and Germany -- 4.2 Latin America and the United Kingdom -- 4.3 Latin America and France -- 4.4 Latin America and Italy -- 5 Partnership Analysis -- 5.1 Partnership Projects SWOT Analysis -- 5.2 Strengths and Weaknesses Analysis -- 5.3 Opportunities and Threats Analysis -- 6 Energy Scenarios -- 7 Conclusion -- References -- Designing Pipeline Networks for Carbon Capture and Storage of CO₂-Sources in Germany: An Industry Perspective -- 1 Introduction -- 2 Literature Review -- 3 Problem Description -- 4 Model Formulation -- 5 Computational Study -- 5.1 Case Study Data -- 5.2 Results -- 6 Conclusion -- References -- Engineering Change Management - An Empirical Study on IT, Processual, and Organizational Requirements -- 1 Introduction -- 2 Literature Background -- 3 Research Design -- 4 Findings -- 5 ECM Framework for Practical Implementations -- 6 Discussion and Conclusion -- Appendix Interview Topic Guide -- References -- Transport and Mobility -- Urban Mobility and Logistics - Past, Present, and Future -- 1 Introduction -- 2 Past -- 3 Present -- 3.1 Present: Logistics -- 3.2 Present: Mobility -- 4 Future -- 4.1 Future: Mobility -- 4.2 Future: Logistics -- 5 Two Examples from the City of Kiel -- 6 Conclusion and Research Perspectives -- References -- Heterogeneous Rail Supply Chain Strategies for International Rail Transport -- 1 Introduction -- 2 Existing Research on Rail Service Differentiation -- 3 Development of Railway Supply Chain Strategies -- 3.1 Efficient RSC -- 3.2 Continuous Replenishment RSC -- 3.3 Responsive RSC -- 4 International Rail Service Differentiation -- 5 Discussion -- 6 Summary -- References. Collaboration Benefits in Port Hinterland Transportation -- 1 Introduction -- 2 Literature Review: Optimization of Collaboration in Hinterland Logistics -- 3 Planning Situation and Model Development -- 4 Computational Study and Results -- 5 Conclusion -- References -- Supply Chain Operations -- Lot Streaming in Hybrid Flow Shop Manufacturing Systems -- 1 Introduction -- 2 Related Literature -- 3 Problem Description and Mathematical Formulation -- 3.1 Problem Definition -- 3.2 Mathematical Models -- 4 Computational Study -- 4.1 Experimental Setting -- 4.2 Preliminary Tests -- 4.3 Main Experiments -- 5 Conclusions -- References -- Carbon-Efficient Scheduling in Distributed Permutation Flow Shops - An Analysis of Cause-Effect Relationships -- 1 Introduction -- 1.1 Motivation -- 1.2 State-of-the-Art -- 1.3 Opportunities and Contribution -- 2 Introduction to the Optimization Problem -- 2.1 Problem Definition -- 2.2 Challenges in Distributed Carbon-Efficient Scheduling -- 2.3 Determination of Carbon Emissions -- 3 Introduction of Solution Approaches -- 3.1

Mixed Integer Linear Programming Model -- 3.2 The Nawaz-Enscore-Ham Heuristic -- 4 Experimental Evaluation -- 4.1 Problem Instances and Experimental Settings -- 4.2 Performance Analysis of Solution Approaches -- 4.3 Analysis of Cause-Effect-Relationships -- 5 Implications and Further Research -- 5.1 Implications -- 5.2 Further Research -- 6 Conclusion and Limitations -- References -- Energy-Efficient Production Scheduling: Insides from Academia and Practice -- 1 Introduction -- 2 Theoretical Background -- 3 Methodology -- 3.1 Systematic Literature Review -- 3.2 Case Study Design and Data Analysis -- 4 Discussion of Results from Literature Review and Case Studies -- 4.1 Manufacturing Environment in Energy-Efficient Production Scheduling -- 4.2 Energy-Efficient Concepts in Production Scheduling. 5 Discussion -- 5.1 Conclusion -- 5.2 Limitations and Further Research -- References -- A Dirty Little Secret? Conducting a Systematic Literature Review Regarding Overstocks -- 1 Introduction -- 2 Method -- 3 Results - The Current Body of Knowledge -- 3.1 Descriptive Results -- 3.2 Concept-Centric Results -- 4 So What? Deriving a Research Agenda -- 5 Conclusion -- References -- Author Index.

Sommario/riassunto

This book gathers peer-reviewed research papers based on selected contributions to the 13th Logistics Management Conference (LM 2023), held on 13.-15.09.2023, in Dresden, Germany. They report on cutting-edge methods and strategies for supply chain management, digitalisation, sustainable development, discussing their application in both manufacturing and service industries.
