

1. Record Nr.	UNINA9910736012603321
Autore	Fersman Elena
Titolo	Confessions of an AI Brain // by Elena Fersman, Paul Pettersson, Athanasios Karapantelakis
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023
ISBN	9783031259357 3031259351
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (XIII, 178 p. 1 illus.)
Classificazione	COM004000COM079000PHI005000TEC007000TEC037000
Disciplina	153.42028563 006.3
Soggetti	Artificial intelligence Computers and civilization Robotics Technology - Moral and ethical aspects Automatic control Automation Artificial Intelligence Computers and Society Ethics of Technology Control, Robotics, Automation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Prologue -- Chapter 1: Baby steps -- Chapter 2: Basic Needs of an AI Brain -- Chapter 3: My Role in Internet of Things -- Chapter 4: Managing Relationships -- Chapter 5: Working with Humans -- Chapter 6: Avoiding the Criminal Path -- Chapter 7: My Role in Climate Change -- Chapter 8: My Role in Diversity -- Chapter 9: My Creative Side -- Chapter 10: Growing Older and Staying in Shape -- Epilogue.
Sommario/riassunto	This book explains the principles and applications of artificial intelligence for a broad audience. Artificial intelligence, as part of computer science, is often inspired by human intelligence. At the same time, there is still reluctance in the applications and usability of

artificial intelligence among citizens. Industries are deploying AI in their products and processes but the level of maturity is varying. This book aims at reaching decision-makers and executives in companies, as well as the citizens and the academic community to explain the inner-workings of AI technology putting it in a center and giving it a human touch. The book is written as a first person narrative, from an AI perspective, having the AI brain tell the story.
