

1. Record Nr.	UNINA9910736016003321
Titolo	Contemporary Small Bowel Transplantation [[electronic resource] /] / edited by Ashesh Piyush Shah, Cataldo Doria
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
Descrizione fisica	1 online resource (Approx. 400 p. 140 illus., 60 illus. in color.)
Collana	Organ and Tissue Transplantation, , 2570-1592
Disciplina	617.954
Soggetti	Surgical transplantation Gastroenterology Transplant Surgery Gastroenterology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	History of intestinal transplantation -- Multivisceral transplantation -- Isolated intestinal transplantation -- Modified multivisceral transplantation -- Organ procurement -- Anesthesia management -- Infections disease -- PTLD -- The immune system -- Pathology of the liver -- Intestinal Rehabilitation -- Portal vein thrombosis -- Neuroendocrine tumor -- HCV -- Emerging therapeutics -- Tissues engineering -- Stem cell therapy -- Pediatric liver transplantation -- Rehabilitation after intestinal transplantation -- Autotransplantation -- Regulatory agencies in transplantation -- Quality measure of a contemporary liver transplant program -- The role of transplant coordinators.
Sommario/riassunto	Intestinal transplantation remains on the cutting edge of solid organ transplantation. Each potential recipient provides a unique case of intestinal failure with individual intricacies requiring the combined efforts of a complex multidisciplinary team in order to achieve success. Contemporary Small Bowel Transplantation covers all aspects of intestinal transplantation in a manner accessible to all providers and provides specific guidance for those that may come in contact with this field and these patients. The text provides an understanding of the critical pre-operative evaluation, thorough descriptions of each surgical

procedure and postoperative management. Areas such as infectious disease, nutrition and graft versus host disease will be addressed in detail. Key controversies and administrative issues unique to intestinal transplantation are covered. Contemporary Small Bowel Transplantation provides critical guidance for the new transplant surgeon, gastroenterologist or administrator as they navigate the challenging field of intestinal transplantation.
