

1. Record Nr.	UNINA9910736500603321
Titolo	Botulinum Toxins, Fillers and Related Substances [[electronic resource] /] / edited by Maria Claudia Almeida Issa, Bhertha Tamura
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-319-20253-7
Descrizione fisica	1 online resource (700 p. 100 illus. in color.)
Collana	Clinical Approaches and Procedures in Cosmetic Dermatology, , 2511-820X
Disciplina	616.5
Soggetti	Dermatology Plastic surgery Pharmacy Pharmaceutical technology Plastic Surgery Pharmaceutical Sciences/Technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	SECTION A: BOTULINUM TOXINS Chapter 1. Anatomy for Botulinum toxin application -- Chapter 2. Toxin for frontal area -- Chapter 3. Toxin for glabellar area and nose -- Chapter 4. Toxin for malar and perioribicular area -- Chapter 5. Toxins for mentum and perioral area -- Chapter 6. Toxins for mandibular contour -- Chapter 7. Toxins on the neck -- Chapter 8. Toxin for V shape neckline area -- Chapter 9. Toxins for hyperhidrosis in axilar area -- Chapter 10. Anesthesia for palmo–plantar hyperhidrosis -- Chapter 11. Toxins for hyperhidrosis in palmoplantar area -- Chapter 12. Toxin for hyperhidrosis in other areas -- Chapter 13. Intradermal therapy with toxin -- Chapter 14. Toxin for new indications -- Chapter 15. Complications and their management -- SECTION B: FILLERS Chapter 16. Anatomy for filler application -- Chapter 17. Anesthesia for filler application -- Chapter 18. Hyaluronic acid for frontal and periorcular area -- Chapter 19. Hyaluronic acid for nose -- Chapter 20. Hyaluronic acid for malar area -- Chapter 21. Hyaluronic acid for the lips and perioral area -- Chapter 22. Hyaluronic acid for mental and

mandibular contour -- Chapter 23. Hyaluronic acid for skin booster on the face -- Chapter 24. Hyaluronic acid for skin booster on the neck and V shape neckline area -- Chapter 25. Calcium Hydroxyapatite to treat the face -- Chapter 26. Calcium Hydroxyapatite to treat the hands -- Chapter 27. Calcium Hydroxyapatite to treat other areas -- Chapter 28. Polilactic acid to treat the face -- Chapter 29. Polilactic acid to treat the body -- Chapter 30. Permanent filler -- Chapter 31. Autologous fillers -- Chapter 32. Liposculpture -- Chapter 33. Complications and their management -- Chapter 34. My personal experience with fillers.

Sommario/riassunto

The series "Clinical Approach and Procedures in Cosmetic Dermatology" intends to be a practical guide in Cosmetic Dermatology. Procedures in cosmetic dermatology are very popular and useful in medicine, indicated to complement topical and oral treatments not only for photodamaged skin but also for other dermatosis such as acne, rosacea, scars, etc. Also, full-face treatments using peelings, lasers, fillers and toxins are increasingly being used, successfully substituting or postponing the need for plastic surgeries. Altogether, these techniques not only provide immediate results but also help patients to sustain long-term benefits, both preventing/treating dermatological diseases and maintaining a healthy and youthful skin. Throughout this series, different treatments in Cosmetic Dermatology will be discussed in detail covering the use of many pharmacological groups of cosmeceuticals, the new advances in nutraceuticals and emerging technologies and procedures. This volume, entitled "Botulin Toxin, Fillers and Related Substances" addresses the most important chemical approaches in cosmetic dermatology. Here are discussed in detail the use of Botulinum toxins and fillers, such as hyaluronic and polilactic acids.
