

1. Record Nr.	UNINA9910736980403321
Autore	Roberge David
Titolo	Radiation Therapy of Benign Diseases [[electronic resource] /] / edited by David Roberge, Sarah S. Donaldson
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023
ISBN	3-031-35517-2
Edizione	[3rd ed. 2023.]
Descrizione fisica	1 online resource (355 pages)
Collana	Radiation Oncology, , 2731-4723
Altri autori (Persone)	DonaldsonSarah S
Disciplina	615.842
Soggetti	Medical radiology Oncology Radiology Internal medicine Surgery Radiation Oncology Internal Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Estimating the Risk of Radiation-Induced Malignancy Following Radiotherapy for Benign Disease -- Understanding Radiation Units -- Autoimmune Disorders -- Dermatologic Conditions -- Infectious Disease -- Diseases of Inflammation -- Endocrinological Disorders -- Musculoskeletal Disorders -- Neurological Disorders -- Benign Lymphoid Disorders -- Pain Disorders -- Psychiatric Disorders -- Reproduction -- Benign Tumors/Premalignant Conditions -- Vascular Disorders -- Other.
Sommario/riassunto	This book, now in a revised third edition, provides practical guidance on the use of radiotherapy techniques in the management of benign diseases. In this edition, the content is grouped in chapters according to the disease category, including autoimmune disorders, dermatologic conditions, infectious diseases, inflammatory diseases, endocrinological disorders, musculoskeletal disorders, neurological disorders, benign lymphoid disorders, pain disorders, psychiatric disorders, reproductive topics, benign tumors/pre-malignant

conditions, and vascular disorders. The format of the different sub-chapters follows those of the previous editions: Each of the sub-chapters features a brief summary, followed by explanatory tables and reference lists. This concise yet comprehensive book is an invaluable resource for radiation oncologists.
