Estonian female journalists' experiences with harassment and self-censorship / Signe Ivask -- Perceptions of risks and the negotiation of safety among Ugandan female journalists covering political demonstrations / Aisha Sembatya Nakiwala --
Sommario/riassunto	This book explores the relationship between the safety of journalists

and self-censorship practices around the world, including local case studies and regional and international perspectives. Bringing together scholars and practitioners from around the globe, *Journalist Safety and Self-Censorship* provides new and updated insights into patterns of self-censorship and free speech, focusing on a variety of factors that affect these issues, including surveillance, legislation, threats, violent conflict, gender-related stereotypes, digitisation and social media. The contributions examine topics such as trauma, risk and self-censorship among journalists in different regions of the world, including Central America, Estonia, Turkey, Uganda and Pakistan. The book also provides conceptual clarity to the notion of journalist self-censorship, and explores the question of how self-censorship may be studied empirically. Combining both theoretical and practical knowledge, this collection serves as a much-needed resource for any academic, student of journalism, practicing journalist, or NGO working on issues of journalism, safety, free speech and censorship.
