Titolo	Environmental dispute resolution in Indonesia / / David Nicholson
Pubbl/distr/stampa	Leiden - Boston, : Brill, 2010 Leiden : , : KITLV Press, , 2009
ISBN	90-04-25386-6
Descrizione fisica	1 online resource (xvii, 334 pages)
Collana	Verhandelingen van het Koninklijk Instituut voor Taal-, Land- en Volkenkunde ; ; 259
Disciplina	301
Soggetti	Environmental law - Indonesia Environmental mediation - Indonesia Dispute resolution (Law) - Indonesia Dispute resolution (Law) Environmental law Environmental mediation Indonesia
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Originally presented as the author's thesis (doctoral)--Universiteit Leiden, 2005.
Nota di bibliografia	Includes bibliographical references (pages 307-324) and index.
Nota di contenuto	Preliminary Material -- CHAPTER I Environmental dispute resolution: Theoretical and Indonesian perspectives -- CHAPTER II Environmental litigation in Indonesia: Legal framework and overview of cases -- CHAPTER III Case studies of environmental litigation -- CHAPTER IV Environmental mediation in Indonesia -- CHAPTER V Case studies of environmental mediation -- CHAPTER VI Conclusion: Environmental justice in Indonesia -- Appendix 1: Overview of environmental litigation cases -- Bibliography -- Index.
Sommario/riassunto	In the last two decades, Indonesia has seen a dramatic proliferation of environmental disputes in a variety of sectors, triggered by intensified deforestation and large scale mining operations in the resource rich outer islands, together with rapid industrialisation in the densely populated inner island of Java. Whilst the emergence of environmental disputes has sometimes attracted political repression, attempts have also been made in recent times to explore more functional approaches

to their resolution. The Environmental Management Act of 1997 created a legal framework for the resolution of environmental disputes through both litigation and mediation. This book is the first attempt to analyse the implementation of this framework in detail and to assess the effectiveness of litigation and mediation in resolving environmental disputes in Indonesia. It includes a detailed overview of the environmental legal framework and its interpretation by Indonesian courts in landmark court cases. The book features a number of detailed case studies of both environmental litigation and mediation and considers the legal and non-legal factors that have influenced the success of these approaches to resolving environmental disputes.

	Nota di contenuto	Introduction : queer(y)ing AI / Michael Klipphahn-Karge, Ann-Kathrin Koster, Sara Morais dos Santos Bruss -- Queering intelligence : a theory of intelligence as performance and a critique of individual and artificial intelligence / Blair Attard-Frost -- Neural "freedoms" : population, choice, and machine learning / Orit Halpern -- I spy with my little AI : how queer bodies are made dirty for digital technologies to claim

cleanness / Nishant Shah -- We're all cyborgs now? : cripping the smart cyborg / Ute Kalender -- Uncanny bodies: queer subjects, artificial surrogates, and ambiguous robotics / Michael Klipphahn-Karge -- Patching & hoarding : recodings of digital reproduction technologies / Katrin Koppert -- Wild science/fiction : conscious AI as queer excess in VanderMeer's Annihilation / Sara Morais dos Santos Bruss -- Innovation and iteration : queer machines and the tension between manifesto and manifestor / Carsten Junker -- AI as medium and message : the (im)possibility of a queer response / Johannes Bruder -- Inconclusion : absent presences / Os Keyes.

| Sommario/riassunto | "This volume offers a socio-technical exploration of Artificial Intelligence (AI) and the way it reflects and reproduces certain normative representations of gender and sexuality, to ultimately guide more diverse and radical discussions of life with digital technologies. Moving beyond the examination of empirical examples and technical solutions, the book approaches the relationship between queerness and AI from a theoretical perspective that posits queer theory as central to understanding AI differently. The chapters pose questions about the politics and ethics of machine embodiments and data imaginaries on the one hand, and about technical possibilities for a production of social identities characterized by shifting diversity and multiplicity on the other, as they are mediated by and through digital technologies. Transgressing disciplinary boundaries to engage a diversity of conceptual tools, critical approaches, and theoretical traditions, this book will be an important resource for students and researchers of gender and sexuality, new media and digital cultures, cultural theory, art and visual culture, and Artificial Intelligence"-- |
