1. Record Nr. UNICAMPANIASUN0000637

Autore	Alvisi, Chiara
Titolo	Autonomia privata e autodisciplina sportiva : il C.O.N.I. e la regolamentazione dello sport / Chiara Alvisi
Pubbl/distr/stampa	Milano : Giuffrè, 2000
ISBN	88-14-08673-7
Descrizione fisica	VIII, 430 p. ; 24 cm.
Disciplina	344.45099
Soggetti	Sport - Legislazione
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr. UNISA990000579800203316

Autore	DOUGLAS, Ronald G.
Titolo	Banach algebra techniques in operator theory / Ronald G. Douglas
Pubbl/distr/stampa	New York, : Springer, c1998
ISBN	0-387-98377-5
Edizione	[2. ed.]
Descrizione fisica	XVI,194 p. ; 24 cm
Collana	Graduate texts in mathematics ; 179
Disciplina	515.724
Soggetti	Teoria degli operatori Algebre di Banach
Collocazione	515.724 DOU
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

3. Record Nr. UNINA9910739406103321

Autore	Boogaart Gerald Van den
Titolo	Analyzing Compositional Data with R / / by K. Gerald van den Boogaart, Raimon Tolosana-Delgado
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2013
ISBN	9783642368097 3642368093
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (269 p.)
Collana	Use R!, , 2197-5744
Disciplina	005.55
Soggetti	Statistics Mathematical statistics - Data processing Geochemistry Statistical Theory and Methods Statistics and Computing Statistics in Engineering, Physics, Computer Science, Chemistry and Earth Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- Fundamental Concepts of Compositional Data Analysis -- Distributions for Random Compositions -- Descriptive Analysis of Compositional Data -- Linear Models for Compositions -- Multivariate Statistics -- Zeroes, Missings and Outliers -- References -- Index. .
Sommario/riassunto	This book presents the statistical analysis of compositional data sets, i. e., data in percentages, proportions, concentrations, etc. The subject is covered from its grounding principles to the practical use in descriptive exploratory analysis, robust linear models and advanced multivariate statistical methods, including zeros and missing values, and paying special attention to data visualization and model display issues. Many illustrated examples and code chunks guide the reader into their modeling and interpretation. And, though the book primarily serves as a reference guide for the R package “compositions,” it is also a general introductory text on Compositional Data Analysis. Awareness of their special characteristics spread in the Geosciences in the early sixties,

but a strategy for properly dealing with them was not available until the works of Aitchison in the eighties. Since then, research has expanded our understanding of their theoretical principles and the potentials and limitations of their interpretation. This is the first comprehensive textbook addressing these issues, as well as their practical implications with regard to software. The book is intended for scientists interested in statistically analyzing their compositional data. The subject enjoys relatively broad awareness in the geosciences and environmental sciences, but the spectrum of recent applications also covers areas like medicine, official statistics, and economics. Readers should be familiar with basic univariate and multivariate statistics. Knowledge of R is recommended but not required, as the book is self-contained.
