

1. Record Nr.	UNINA990009564460403321
Autore	Istituto geografico militare
Titolo	Civitavecchia [Documento cartografico] / Istituto geografico militare
Pubbl/distr/stampa	Firenze : IGM, 1954
Descrizione fisica	1 carta : color. ; 42 x 37 su foglio 61 x 51 cm
Collana	Carta d'Italia ; 142, quadrante 2, tavoletta NO
Localione	ILFGE
Collocazione	MP Cass.2 142, 2(4)bis
Lingua di pubblicazione	Italiano
Formato	Materiale cartografico a stampa
Livello bibliografico	Monografia
Note generali	Il meridiano di riferimento è M. Mario, Roma
2. Record Nr.	UNINA9910739438503321
Autore	Sanz Joaquim
Titolo	Elements and Mineral Resources // by Joaquim Sanz, Oriol Tomasa, Abigail Jimenez-Franco, Nor Sidki-Rius
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2022
ISBN	3-030-85889-8
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (378 pages) : illustrations
Collana	Springer Textbooks in Earth Sciences, Geography and Environment, , 2510-1315
Disciplina	549 553
Soggetti	Earth sciences Geotechnical engineering Earth Sciences Geotechnical Engineering and Applied Earth Sciences Mines Recursos naturales Mineralogia Llibres electrònics
Lingua di pubblicazione	Inglese

Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Universitat Politècnica de Catalunya, BarcelonaTech" -- Cover
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Foreword -- Introduction -- Mineral elements -- Rare Earth Elements -- Industrial Minerals -- Evolution of mineral prices.
Sommario/riassunto	<p>This textbook is the first to offer essential information on the ores and basic properties of the majority of chemical elements, together with the most important industrial minerals, their latest applications and recycling options, illustrated with a wealth of photos. This book represents the culmination of a comprehensive project jointly pursued by the Valentí Masachs Geology Museum and the Universitat Politècnica de Catalunya (UPC) (Polytechnic University of Catalonia) over the past several years. Published in response to multiple requests from university professors and other educators, it will promote a new society in which human beings use the Earth's natural resources responsibly and with respect for the environment. Keep in mind that we aren't the only inhabitants of the Earth, a wonderful but depletable planet!</p>
