

1. Record Nr.	UNINA9910733738503321
Titolo	CLADAG 2021 BOOK OF ABSTRACTS AND SHORT PAPERS : 13th Scientific Meeting of the Classification and Data Analysis Group - Firenze, September 9-11, 2021 // edited by Giovanni C. Porzio, Carla Rampichini and Chiara Bocci
Pubbl/distr/stampa	Firenze, Italy : , : Firenze University Press, , 2021
Descrizione fisica	1 online resource (439 pages) : illustrations
Collana	Biblioteca di Studi Slavistici
Disciplina	519.5
Soggetti	Statistics Conference proceedings
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The book collects the short papers presented at the 13th Scientific Meeting of the Classification and Data Analysis Group (CLADAG) of the Italian Statistical Society (SIS). The meeting has been organized by the Department of Statistics, Computer Science and Applications of the University of Florence, under the auspices of the Italian Statistical Society and the International Federation of Classification Societies (IFCS). CLADAG is a member of the IFCS, a federation of national, regional, and linguistically-based classification societies. It is a non-profit, non-political scientific organization, whose aims are to further classification research.

2. Record Nr.	UNINA9910739444703321
Autore	Paolini William
Titolo	Choosing and using astronomical eyepieces // William Paolini
Pubbl/distr/stampa	New York, : Springer Science, 2013
ISBN	1-4614-7723-9
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (451 p.)
Collana	The Patrick Moore Practical Astronomy Series, , 1431-9756
Disciplina	522.2
Soggetti	Telescopes Astronomy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Preface.- Part I: Background.- Chapter 1: Introducing the Astronomical Eyepiece -- Chapter 2: Choosing Eyepieces and Observing Strategies -- Chapter 3: Eyepieces for Celestial Targets and Accessories -- Chapter 4: Popular Eyepieces by AFOV Class -- Chapter 5: Advice from the Amateur Astronomer Community.- Part II: Desk Reference of Astronomical Eyepieces.- Chapter 6: How to Use This Guide -- Chapter 7: Agena to Docter -- Chapter 8: Edmund Scientific to Nikon -- Chapter 9: Olivon to Surplus Shed -- Chapter 10: Takahashi to Zooming Eyepieces.- Appendix A: Formulas and Optical Design Data -- Appendix B: Eyepiece Performance Classes -- Appendix C: Glossary of Terms.- Index.
Sommario/riassunto	This valuable reference fills a number of needs in the field of astronomical eyepieces, including that of a buyer's guide, observer's field guide and technical desk reference. It documents the past market for eyepieces and its evolution right up to the present day. In addition to appealing to practical astronomers - and potentially saving them money - it is useful both as a historical reference and as a detailed review of the current market place for this bustling astronomical consumer product. What distinguishes this book from other publications on astronomy is the involvement of observers from all aspects of the astronomical community, and also the major manufacturers of equipment. It not only catalogs the technical aspects of the many modern eyepieces but also documents amateur observer

reactions and impressions of their utility over the years, using many different eyepieces. Eyepieces are the most talked-about accessories and collectible items available to the amateur astronomer. No other item of equipment commands such vigorous debate, or has evolved into such a remarkable array of forms and functions. But because of such riches, it is easy to get lost when trying to decide on what eyepieces to buy. This book will help readers choose the best eyepiece for them now and continue to serve as a treasure trove of information for years to come!
