The Care and Welfare of Children -- 8. Social Housing and Income Support -- 9. Divorce, Child Support, and International Migration -- 10. Strengthening and Reducing Family Support -- Works Cited -- Index
Sommario/riassunto	Recent years have seen significant changes in the social policies of many liberal welfare-states; this is especially true of social programs for families with children. Increasingly, governments are making family policy trade-offs, reducing support for some families but improving it for others. Why are such trade-offs occurring, and how do governments differ in their approach to family social policy? This study addresses these questions by examining the political, demographic, and socio-economic factors influencing the restructuring of family-

related programs in OECD countries. Adopting a feminist political economy approach, Maureen Baker shows that while some governments encourage their citizens to see children as 'future resources,' and promote strong support for reproductive health programs, child welfare services, women's refuges, subsidized childcare, and pay equity, others make these claims while simultaneously reducing family incomes through the deregulation of labour markets and restrictions on income support. Ultimately, Baker demonstrates that nation states with the best outcomes for families offer a variety of social supports, which are increasingly important as global markets reduce economic security for some families while improving the financial situation of others. This study also explores strategies employed by states to incorporate or resist international pressures, and the reasons why some states tenaciously defend their family policy traditions while others restructure according to international guidelines. Drawing from nation-based research, cross-national studies, and international data bases, *Restructuring Family Policies* successfully integrates mainstream academic debates about restructuring welfare states with feminist research findings and current policy concerns.

ISAKOS Shoulder Terminology Project - Preliminary Report
- Classifications and Scoring Systems: Introduction -- A Review of Rotator Cuff Classifications in Current Use -- ISAKOS Classification System for Rotator Cuff Tears -- A Review of Classifications for the Shoulder Instability -- ISAKOS Consensus Shoulder Instability Classification System. Outcomes Scores for Shoulder Instability and Rotator Cuff Disease. Copenhagen Consensus on Acromio-Clavicular Disorders: Introduction -- Anatomy and biomechanics -- The degenerative AC-joint -- Classification of AC-joint dislocation -- ISAKOS Terminology Project -- Clinical evaluation, and treatment algorithm -- Non-operative treatment -- Surgical treatment -- Conclusion and directions for the future. Buenos Aires Consensus on Rotator Cuff Disease: Known Facts and Unresolved Issues - Proceedings of the 2011-2013 ISAKOS Upper Extremity Committee: Anatomy (Bone, Tendon, Bursa and the Neurovascular Anatomy) -- Biomechanics -- Tendinosis, Impingement and Ruptures -- Arthroscopic

Reconstructions -- Revisions, Augments and Prostheses.

Sommario/riassunto

The ISAKOS Upper Extremity Committee (UEC) meets on a biannual basis for Closed Consensus Meetings. Each summit, a worldwide expert panel of surgeons and researchers convene for an in-depth discussion about a controversial topic. The purpose of this endeavor is to combine expertise and reach international consensus for the most appropriate management of various shoulder disorders. This booklet constitutes an integral part of the agreement encountered during these meetings. Section A provides a comprehensive review of the currently available Classifications and Outcome Scores for shoulder disorders, illustrating their potential pitfalls and limitations. Section B presents a summary of the Acromio-Clavicular Joint (ACJ) Consensus Summit, describing pioneering techniques to re-establish shoulder function after dislocation. Section C describes the current state of evidence of Rotator Cuff Disorders, providing novel theories regarding its underlying biomechanics and reconstruction techniques. The 2009-2013 ISAKOS UEC members hope the readers find this compendium an insightful update for daily shoulder management.

4. Record Nr.	UNINA9910141753103321
Autore	Segal Eliezer

Sommario/riassunto

Written for a general audience, the essays collected here present refreshing and often humorous glimpses of various topics in Jewish history and traditional religious literature. Inspired by the diversity of Jewish thought, author and scholar Eliezer Segal sheds light on the social and political forces that have brought the Jewish community together in the past and still speak with familiarity to a modern western culture. Enlightening and entertaining, Professor Segal's writing is a rare blend of scholarship and wit, highlighting contemporary experiences that bring the rich heritage of Jewish civilization to life for the everyday reader. With an extensive and broad knowledge of ancient and medieval Jewish social and religious traditions, Segal deftly crafts anecdotes and explanations that address the tribulations of contemporary life. From topics as diverse as panhandling, tennis, vampires, and the history of the tomato to themes as universal as weddings, charity, and taxation, the essays presented here, some for the first time in English, all include detailed notes on sources for further reading. Equally suited to those after a light-hearted romp or those on a serious quest for knowledge, *Ask Now of the Days that Are Past* is sure to satisfy anyone who has ever wondered how the past still influences us today.
