

1. Record Nr.	UNINA9910741154503321
Titolo	Computer Information Systems and Industrial Management : 19th International Conference, CISIM 2020, Bialystok, Poland, October 16–18, 2020, Proceedings // edited by Khalid Saeed, Jiř Dvorský
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-47679-0
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (498 pages)
Collana	Information Systems and Applications, incl. Internet/Web, and HCI, , 2946-1642 ; ; 12133
Disciplina	004.6
Soggetti	Application software Artificial intelligence Computer networks Computer science - Mathematics Software engineering Computer and Information Systems Applications Artificial Intelligence Computer Communication Networks Mathematics of Computing Software Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Keynotes -- Biometrics and Pattern Recognition Applications -- Computer Information Systems and Security -- Industrial Management and Other Applications -- Machine Learning and High Performance Computing -- Modelling and Optimization.
Sommario/riassunto	This book constitutes the proceedings of the 19th International Conference on Computer Information Systems and Industrial Management Applications, CISIM 2020, held in Bialystok, Poland, in October 2020. Due to the COVID-19 pandemic the conference has been postponed to October 2020. The 40 full papers presented together with 5 abstracts of keynotes were carefully reviewed and selected from 62 submissions. The main topics covered by the chapters

in this book are biometrics, security systems, multimedia, classification and clustering, industrial management. Besides these, the reader will find interesting papers on computer information systems as applied to wireless networks, computer graphics, and intelligent systems. The papers are organized in the following topical sections: biometrics and pattern recognition applications; computer information systems and security; industrial management and other applications; machine learning and high performance computing; modelling and optimization.
