Titolo	Turkey [[electronic resource]] : women in culture, business & travel // World Trade Press
Pubbl/distr/stampa	Petaluma, Calif., : World Trade Press, c1993-2010 [2010]
ISBN	1-60780-271-6
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (7 p.)
Disciplina	301.2
Soggetti	Women travelers - Turkey Women - Turkey Businesswomen - Turkey
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Cover title.
Nota di contenuto	Women in culture, business & travel -- The traveling businesswoman.
Sommario/riassunto	Women often occupy different roles in a foreign culture. Avoid offensive assumptions and behavior by understanding the position of women in Turk society: their legal rights; access to education and health care; workforce participation; and their dating, marriage, and family life.

Sommario/riassunto

st We welcome you to the proceedings of the 21 International Conference on Database and Expert Systems Applications held in Bilbao. With information and database systems being a central topic of computer science, it was to be expected that the integration of knowledge, information and data is today contributing to the again rapidly increasing attractiveness of this field for researchers and practitioners. Since its foundation in 1990, DEXA has been an annual international conference, located in Europe, which showcases state-of-the-art research activities in these areas. DEXA 2010 continued this tradition and provided a forum for presenting and discussing research results in the area of database and intelligent systems and advanced search topics, applications and practically relevant issues related to these areas. It offered attendees the opportunity to extensively discuss requirements, problems, and solutions in the field in the pleasant atmosphere of the city of Bilbao, which is known for its driving industriousness, its top cultural venues and its rich and inspiring heritage and lifestyle. The University of Deusto with its great educational and research traditions, and the hospitality which the university and the city are so famous for, set the stage for this year's DEXA conference. This volume contains the papers selected for presentation at the DEXA conference.
