

1. Record Nr.	UNINA9910741189903321
Titolo	Clinical Ophthalmic Oncology : Eyelid and Conjunctival Tumors / / edited by Jacob Pe'er, Arun D. Singh, Bertil E. Damato
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-06046-2
Edizione	[3rd ed. 2019.]
Descrizione fisica	1 online resource (314 pages)
Disciplina	616.99484
Soggetti	Ophthalmology Oncology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Eyelid tumors: Examination Techniques -- Eyelid Tumors: Classification and Differential Diagnosis -- Benign Squamous and Melanocytic Tumors -- Basal Cell Carcinoma.-Squamous Cell Carcinoma.- Sebaceous Gland Carcinoma -- Eyelid Tumors: Cutaneous Melanoma -- Adnexal Tumors.-Stromal Tumors -- Surgical Techniques -- Systemic Associations -- Conjunctival and Corneal Tumors: Examination Techniques -- Conjunctival and Corneal Tumors: Classification and Differential Diagnosis -- Conjunctival and Corneal Tumors: Benign Epidermal and Melanocytic Tumors -- Conjunctival and Corneal Tumors: Ocular Surface Squamous Neoplasia -- Conjunctival and Corneal Tumors: Primary Acquired Melanosis -- Conjunctival and Corneal Tumors: Melanoma -- Conjunctival Stromal Tumors -- Caruncle Tumors -- Pharmacotherapy for conjunctival malignancies -- Sentinel Lymph Node Biopsy for Eyelid and Conjunctival Malignancies -- Surgical Techniques -- Radiation Therapy: Conjunctival and Eyelid tumors -- Conjunctival and corneal tumors: SystemicAssociations.
Sommario/riassunto	Written by internationally renowned experts, the 3rd edition of this six volume textbook provides detailed practical guidance and advice on the diagnosis and management of the complete range of ocular cancers. Supplying the reader with state-of-the-art knowledge required in order to identify these cancers early and to treat them as effectively as possible, this book is divided into six volumes: Basic Principles, Eyelid

and Conjunctival Tumors, Orbital Tumors, Uveal Tumors, Retinal Tumors, and Retinoblastoma. The information presented enables readers to provide effective patient care using the latest knowledge on ophthalmic oncology and to verify diagnostic conclusions based on comparison with numerous full-color clinical photographs from the authors' private collections, histopathologic microphotographs, imaging studies, and crisp illustrations. Clinical Ophthalmic Oncology's clinically focused and user-friendly format allows for rapid retrieval of information in daily practice and is written for residents, fellows, and any physician involved in the care of patients with ocular or orbital malignancies. Additionally, this edition adds several hundred new images to improve comprehension of procedures and techniques. This volume provides the examination techniques, classification, and differential diagnosis of eyelid tumors and conjunctival and corneal tumors, carefully explained with treatment options considered in detail.
