1. Record Nr.	UNINA9910742490303321
Autore	Manzoni Luca
Titolo	Cellular Automata and Discrete Complex Systems : 29th IFIP WG 1.5 International Workshop, AUTOMATA 2023, Trieste, Italy, August 30 – September 1, 2023, Proceedings / / edited by Luca Manzoni, Luca Mariot, Dipanwita Roy Chowdhury
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2023
ISBN	9783031422508
	3031422503
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (175 pages)
Collana	Lecture Notes in Computer Science, , 1611-3349 ; ; 14152
Altri autori (Persone)	MariotLuca
	Roy ChowdhuryDipanwita
Disciplina	004.0151
Soggetti	Computer science
	Artificial intelligence
	Database management
	Theory of Computation
	Artificial Intelligence
	Database Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Invited Paper -- Isometric Words and Edit Distance: Main Notions and New Variations -- Regular Papers -- AUTOMATA 2023 -- On the surjunctivity and the Garden of Eden theorem for non-uniform cellular automata -- Diddy: a Python toolbox for infinite discrete dynamical systems -- Convergence of Vector-Valued Fuzzy Cellular Automata with Weighted-Averaging Rules -- A decentralised diagnosis method with probabilistic cellular automata -- Optimized Reversible Cellular Automata Based Clustering -- Multiple-Stream Parallel Pseudo-Random Number Generation with Cellular Automata -- On the Minimum Distance of Subspace Codes Generated by Linear Cellular Automata -- Regular Papers -- AUTOMATA 2022 -- Triangle solitaire -- Pattern Classification with Temporally Stochastic Cellular Automata -- Building Correlation Immune Functions from Sets of Mutually Orthogonal Cellular Automata.

Sommario/riassunto

This book constitutes the proceedings of the 29th IFIP WG 1.5 International Workshop on Cellular Automata and Discrete Complex Systems, AUTOMATA 2023, which took place in Trieste, Italy, in August/September 2023. For AUTOMATA 2023, 7 full papers have been carefully reviewed and selected from 11 submissions. The book also contains 3 full papers from AUTOMATA 2022, which have been selected from a total of 18 submissions. In addition, the proceedings contain one invited talk in full paper length from AUTOMATA 2023. .
