

1. Record Nr.	UNINA9910743223803321
Titolo	Fungal diversity, ecology and control management // edited by Vijay Rani Rajpal, Ishwar Singh, and Shrishail S. Navi
Pubbl/distr/stampa	Singapore : , : Springer, , [2022] ©2022
ISBN	981-16-8877-X 981-16-8876-1
Descrizione fisica	1 online resource (634 pages)
Collana	Fungal Biology
Disciplina	571.29
Soggetti	Fungi - Morphology Fungi - Ecology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Intro -- Preface -- Acknowledgments -- Contents -- About the Editors -- Part I: Biology and Diversity of Fungi -- 1: Biology and Management of Spot Blotch Pathogen <i>Bipolaris sorokiniana</i> of Wheat -- 1.1 Introduction -- 1.2 Worldwide Distribution of the Pathogen -- 1.3 Naming and Taxonomy of Spot Blotch Pathogen -- 1.4 Reproduction of the Pathogen -- 1.5 Pathogen Survival and Source of Inoculum -- 1.6 The Pathogen: Primary and Secondary Disease Cycle and its Morphology -- 1.7 Symptomatology -- 1.8 Fungal Isolation and Its Diagnosis -- 1.9 Disease Assessment -- 1.10 Toxin Production and Host-Pathogen Interaction -- 1.11 Population Differentiation and Molecular Characterization of <i>B. sorokiniana</i> -- 1.11.1 Chromosome and Karyotypes of <i>B. sorokiniana</i> -- 1.11.2 Whole Genome Sequence Analysis -- 1.12 Disease Management -- 1.12.1 Use of Resistant Genotypes -- 1.12.2 QTLs Identification -- 1.12.3 Agronomic Practices -- 1.12.4 Fungicides, Bioagents, and Botanicals -- 1.13 Conclusions -- References -- 2: Biology and Management of <i>Ustilagoidea virens</i> Causing False Smut Disease of Rice (<i>Oryza sativa</i> L.) -- 2.1 Introduction -- 2.2 Biology of the Pathogen -- 2.2.1 Taxonomy -- 2.2.2 Life Cycle -- 2.2.3 Infection Process -- 2.2.4 Mycotoxins -- 2.2.5 Disease Epidemiology -- 2.3 Genomics of <i>U. virens</i> -- 2.3.1 Whole Genome Sequences -- 2.3.2 Genetic Diversity of <i>U. virens</i> -- 2.3.3 Functional

Characterization Studies of Pathogenic Genes -- 2.4 Disease Management -- 2.4.1 Host Plant Resistance -- 2.4.2 Cultural Methods -- 2.4.3 Chemical and Biological Management -- 2.5 Conclusions -- References -- 3: Diversity of Some of the Major Fungal Pathogens of Soybean and Potential Management Options -- 3.1 Introduction -- 3.2 Diversity of *Fusarium* spp. Associated with Soybean Sudden Death Syndrome -- 3.3 Diversity of *Fusarium* spp. Associated with Soybean Root Rot. 3.4 Diversity of *Pythium* spp. Associated with Damping-Off of Soybean -- 3.5 Diversity of *Macrophomina* spp. Associated with Soybean Charcoal Rot -- 3.6 Management Options to Minimize Yield Losses Due to Some of the Major Diseases of Soybean -- 3.6.1 Sudden Death Syndrome (*Fusarium* spp.) -- 3.6.2 *Fusarium* Root Rot -- 3.6.3 *Pythium* Damping-Off -- 3.6.4 Charcoal Rot (*Macrophomina phaseolina*) -- References -- 4: Fungi and Mycotoxin in Rice: Concerns, Causes, and Prevention Strategies -- 4.1 Introduction -- 4.1.1 Fungal Contamination in Rice Grain -- 4.2 Fungi and Mycotoxin Generation in Rice -- 4.3 Mycotoxin Contamination and Health Issues -- 4.4 Mycotoxin Contamination and Regulations -- 4.5 Contributing Factors to Fungal and Mycotoxin Generation -- 4.5.1 Moisture Content (MC) -- 4.5.2 Storage Temperature -- 4.5.3 Grain Morphology -- 4.6 Storage Condition and Type of Fungal and Mycotoxin Contamination -- 4.7 Mitigation Strategies for Fungal Contamination in the Grains -- 4.7.1 Chemical Fungicide -- 4.7.2 Non-chemical Treatments -- 4.7.3 New Sophisticated Technologies -- 4.7.4 Biological Control -- 4.7.5 Plant Extracts as Fungicides -- 4.7.6 Integrated Management Strategies to Control Fungal Contamination -- 4.7.7 Prevent Fungal Adsorption -- References -- 5: Bioactive Profile of the Wild Mushroom *Trogia cantharelloides* -- 5.1 Introduction -- 5.2 Biology of *Trogia* -- 5.3 Harvest and Process -- 5.4 Biochemical Composition -- 5.4.1 Bioactive Components -- 5.4.2 Sugars, Organic Acids, and Polyphenols -- 5.4.3 Bioactive Compounds -- 5.5 Nutritional and Antinutritional Attributes -- 5.5.1 Nutritional Components -- 5.5.2 Antinutritional Qualities -- 5.6 Antimicrobial Potential -- 5.7 Conclusions -- References -- 6: Prospects of Cordycepin and Polysaccharides Produced by *Cordyceps* -- 6.1 Introduction. 6.2 Biological Activities of Compounds Especially Cordycepin and Polysaccharides from *Cordyceps* Species -- 6.2.1 Anticancer -- 6.2.2 Antidiabetic -- 6.2.3 Anti-hyperlipidemia -- 6.2.4 Antifungal -- 6.2.5 Immunomodulatory -- 6.2.6 Antioxidant -- 6.2.7 Antiaging -- 6.2.8 Antiviral -- 6.2.9 Hepato-protective -- 6.2.10 Hypo-sexuality -- 6.2.11 Cardiovascular Diseases -- 6.2.12 Anti-inflammatory Activities -- 6.3 Liquid State Fermentation -- 6.4 Solid State Fermentation -- 6.5 Conclusion and Future Prospectus -- References -- 7: Genome-Mediated Methods to Unravel the Native Biogeographical Diversity and Biosynthetic Potential of *Trichoderma* for Plant... -- 7.1 Introduction -- 7.2 Diversity of *Trichoderma* Species in India -- 7.3 Taxonomy of Some Important *Trichoderma* Species -- 7.3.1 *Trichoderma aggressivum* -- 7.3.2 *Trichoderma asperellum* -- 7.3.3 *Trichoderma atroviride* -- 7.3.4 *Trichoderma brevicompactum* -- 7.3.5 *Trichoderma citrinoviride* -- 7.3.6 *Trichoderma harzianum* -- 7.3.7 *Trichoderma hamatum* -- 7.3.8 *Trichoderma koningiopsis* -- 7.3.9 *Trichoderma longibrachiatum* -- 7.3.10 *Trichoderma reesei* -- 7.3.11 *Trichoderma saturnisporum* -- 7.3.12 *Trichoderma virens* -- 7.4 Genome-Mediated Methods for Characterizing the *Trichoderma* Species and Their Antagonistic Activities: Conventional to Rece... -- 7.5 Whole Genome Sequencing and Their Interpretation for Biocontrol Activity -- 7.6 Conclusion -- References -- 8: The Diversity and Taxonomy of Phytopathogenic Fungi

in the Genus *Cladosporium* from India -- 8.1 Introduction -- 8.2 Materials and Methods -- 8.2.1 Survey Conducted -- 8.2.2 Identification -- 8.3 Results and Discussions -- 8.3.1 Taxonomic Description -- References -- 9: Hidden Earthstar Diversity in the Jharkhand State of India -- 9.1 Introduction -- 9.2 Diverse Physiographic and Climatic Condition of Jharkhand -- 9.2.1 Vegetation and Forest Types. 9.2.2 Overview of Wild Mushrooms of Jharkhand -- 9.2.3 Earthstar-The Wild Edible Mushrooms -- 9.3 Taxonomy of Earthstar -- 9.3.1 Morpho-anatomy of Earthstar -- 9.3.1.1 *Astraeus odoratus* Watling M. P. Martín & Whalley -- 9.3.1.2 *G. albonigrum* Calonge and M. Mata -- 9.3.2 Molecular and Phylogenetical Characterization -- 9.3.3 Global Molecular Data Repositories of Earthstar -- 9.4 Earthstar Ecology -- 9.4.1 Interaction with Host and their Symbiosis -- 9.4.2 Interaction with Microbes -- 9.4.3 Mycorrhization and Fruit Body Formation in Earthstar -- 9.5 Ethnomycological Prospective -- 9.5.1 Nutritional and Nutraceuticals Profiling -- 9.5.2 Phytochemical Profiling and Therapeutic Importance -- 9.6 Conclusions -- References -- 10: Diversity of Corticioid Fungi Belonging to the Family Meruliaceae in Chamba District of Himachal Pradesh -- 10.1 Introduction -- 10.2 Material and Methods -- 10.3 Key to the Genera -- 10.4 Taxonomic Descriptions -- 10.4.1 *Crustoderma* Parmasto, *Conspectus Systematis Corticiacearum*. (Tartu): 87 (1968) -- 10.4.1.1 *Crustoderma dryinum* (Berk. and M.A. Curtis) Parmasto (Berkeley and Curtis 1873 -- Parmasto 1968) (Fig. 10.1) -- 10.4.2 *Gyrophanopsis* Jülich, *Pers.* 10 (3): 329 (1979) -- 10.4.2.1 *Gyrophanopsis polonensis* (Bres.) Stalpers and P.K. Buchanan (Bresadola 1903 -- Stalpers and Buchanan 1991) (Fig. 10.2) -- 10.4.3 *Hyphoderma* Wallr. *Wallr. Flora Cryptogamica Germaniae* 2: 576 (1833) -- 10.4.3.1 Key to the Species of Genus *Hyphoderma* -- 10.4.3.2 *Hyphoderma argillaceum* (Bres.) Donk (Bresadola 1898 -- Donk 1957) (Fig. 10.3) -- 10.4.3.3 *Hyphoderma clavatum* Sheng H. Wu (Wu 1997) (Fig. 10.4) -- 10.4.3.4 *Hyphoderma guttuliferum* (P. Karst.) Donk (Karsten 1889 -- Donk 1962) (Fig. 10.5) -- 10.4.3.5 *Hyphoderma lapponicum* (Litsch.) Ryvar den (Litschauer 1941 -- Ryvar den 1971) (Fig. 10.6). 10.4.3.6 *Hyphoderma nemorale* K.H. Larss. (Larsson 1998) (Fig.10.7) -- 10.4.3.7 *Hyphoderma pallidum* (Bres.) Donk (Bresadola 1898 -- Donk 1957) (Fig. 10.8) -- 10.4.3.8 *Hyphoderma praetermissum* (P. Karst.) J. Erikss. and Å. Strid (Karsten 1889 -- Eriksson and Strid 1975) (Fig. 10.9) -- 10.4.3.9 *Hyphoderma roseocrema* var. *minutisporum* Priyanka and Dhingra (Priyanka and Dhingra 2014) (Fig. 10.10) -- 10.4.3.10 *Hyphoderma setigerum* (Fr.) Donk (Fries 1828 -- Donk 1957) (Fig. 10.11) -- 10.4.3.11 *Hyphoderma setigerum* var. *bicystidium* Dhingra and Singla (Dhingra and Singla 1993) (Fig. 10.12) -- 10.4.3.12 *Hyphoderma sibiricum* (Parmasto) J. Erikss. and Å. Strid (Parmasto 1968 -- Eriksson and Strid 1975) (Fig. 10.13) -- 10.4.3.13 *Hyphoderma tsugae* (Burt) J. Erikss. and Å. Strid (Burt 1926 -- Eriksson and Strid 1975) (Fig. 10.14) -- 10.4.4 *Hypochnicium* J. Erikss., *Symbolae Botanicae Upsalienses* 16 (1): 100 (1958) -- 10.4.4.1 Key to the Species of Genus *Hypochnicium* -- 10.4.4.2 *Hypochnicium erikssonii* Hallenb. and Hjortstam (Hallenberg and Hjortstam 1990) (Fig. 10.15) -- 10.4.4.3 *Hypochnicium lundelli* (Bourdot) J. Erikss. (Bourdot 1949 -- Eriksson 1958) (Fig. 10.16) -- 10.4.4.4 *Hypochnicium punctulatum* (Cooke) J. Erikss. (Cooke 1878 -- Eriksson 1958) (Fig. 10.17) -- 10.5 Discussion -- References -- 11: Diversity of Some Colourful Poroid and Non-poroid Agaricomycetous Fungi -- 11.1 Introduction -- 11.2 Material and Methods -- 11.3 Taxonomic Descriptions -- 11.3.1 *Antrodia leucaena* Y.C. Dai and Niemelä (Dai and Niemelä 2002) (Fig.

11.1) -- 11.3.2 *Antrodia malicola* (Berkeley and Curtis) Donk (Berkeley and Curtis 1856 -- Donk 1966) (Fig. 11.2) -- 11.3.3 *Antrodia pulvinascens* (Pilt) Niemelä (Pilt 1953 -- Niemelä 1985) (Fig. 11.3) -- 11.3.4 *Coltricia cinnamomea* (Jacquin) Murrill (Jacquin 1786 -- Murrill 1904) (Fig.11.4).
11.3.5 *Coltricia focicola* (Berk. and M.A. Curtis) Murrill (Berkeley and Curtis 1869).
