

1. Record Nr.	UNINA9910453725803321
Titolo	Estimating mortality risk reduction and economic benefits from controlling ozone air pollution [[electronic resource] /] / Committee on Estimating Mortality Risk Reduction Benefits from Decreasing Tropospheric Ozone Exposure, Board on Environmental Studies and Toxicology, Division on Earth and Life Studies, National Research Council of the National Academies
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, c2008
ISBN	1-281-76726-3 9786611767266 0-309-11995-2
Descrizione fisica	1 online resource (226 p.)
Disciplina	363.7384
Soggetti	Air - Pollution - Standards - United States Atmospheric ozone - Standards - United States Contingent valuation Environmental risk assessment Health risk assessment Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 182-203).

2. Record Nr.	UNINA9910743225803321
Titolo	Tuberculosis of the spine // Sarvdeep Singh Dhatt and Vishal Kumar, editors
Pubbl/distr/stampa	Singapore : , : Springer, , [2022] ©2022
ISBN	981-16-9494-X 981-16-9495-8
Descrizione fisica	1 online resource (394 pages)
Disciplina	573.76
Soggetti	Spine - Tuberculosis Spine - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Foreword -- Preface -- Contents -- About the Editors -- Chapter 1: Historical Perspectives of Musculoskeletal Tuberculosis -- 1.1 Historical Perspectives of Musculoskeletal Tuberculosis Treatment -- 1.1.1 Tuberculosis: The Resurrection -- References -- Chapter 2: History of Tuberculosis Spine (Post-ATT Era) -- 2.1 Introduction -- 2.2 Early ATT and Surgery -- 2.3 Surgical Approaches -- 2.4 Anterior -- 2.5 Anterior-Posterior -- 2.6 Posterior Approach -- 2.7 Conclusion -- References -- Chapter 3: Epidemiology of Tuberculosis of Spine -- 3.1 Introduction -- 3.2 TB: Global Perspective -- 3.3 TB: US Perspective -- 3.4 WHO Plans for Control of TB: WHO End TB Strategy and UN Sustainable Development Goals (SDGs) -- 3.5 TB and HIV and Other Immunosuppressive Disease and Conditions -- 3.6 Diagnosis and Reporting of TB -- 3.7 Management of Spinal Tuberculosis and Mortality/Morbidity -- 3.8 Drug Resistance -- 3.9 Treatment of Drug-Resistant TB -- 3.10 Prevention of TB -- 3.11 Summary -- References -- Chapter 4: Anatomy and Pathophysiology of TB Spine -- 4.1 Structure of a Typical Vertebra -- 4.2 Characteristics of Vertebra -- 4.3 Vertebral Canal -- 4.4 Intervertebral Foramen (Fig 4.4a, b) -- 4.5 Vertebral Curvatures -- 4.6 Line of Gravity -- 4.7 Joints and Ligaments in the Vertebral Column (Tables 4.1 and 4.2) -- 4.8 Intervertebral Disc -- 4.9 Vascular Supply -- 4.10 Arterial Supply -- 4.11 Veinous

Drainage -- 4.12 External Vertebral Venous Plexus -- 4.13 Internal Vertebral Venous Plexus -- 4.14 Basivertebral Vein -- 4.15 Intervertebral Vein -- 4.16 Lymphatic Drainage -- 4.17 Innervation (Fig. 4.7) -- 4.18 Growth and Development of Vertebra (Fig. 4.8) -- 4.19 Pathophysiology of Spinal Tuberculosis -- 4.19.1 Introduction -- 4.19.2 Causative Organism of Tuberculosis -- 4.19.3 Risk Factors for Infection and Transmission.

4.19.3.1 Development and Course of Tuberculosis Infection -- 4.19.4 Pathogenesis -- 4.19.5 Mechanisms and Patterns of Involvement of Spine -- 4.19.5.1 Cold Abscess -- 4.19.5.2 Paraplegia -- 4.19.5.3 Kyphotic Deformity -- References -- Chapter 5: Clinical Presentation, Features, and Examination of a Case of Suspected Tuberculosis -- 5.1 Introduction -- 5.2 Signs and Symptoms -- 5.3 Presenting with Neurological Deficit -- 5.4 Presentation with Cold Abscess -- 5.5 Presentation with Spine Deformity -- 5.6 Suspecting Cranio-Vertebral (CV) junction TB -- 5.7 Suspecting Sub-axial Cervical Spine TB -- 5.8 Suspecting Thoracic Spine TB -- 5.9 Suspecting Lumbar Spine TB -- 5.10 Suspecting Sacroiliac Joint TB (SJT) -- 5.11 Suspecting Intradural/Intramedullary Tuberculoma -- 5.12 Signs and Symptoms in Pediatric Spinal TB -- 5.13 Elderly with Suspected Tuberculosis -- 5.14 Atypical Presentation -- 5.15 Presentation in Immunosuppressive Individuals -- 5.16 Suspecting Tuberculosis Complicating Spine Surgery -- 5.17 Under and Over-Diagnosed (Differential Diagnosis) -- References -- Chapter 6: Diagnostic Modalities in TB Spine: Clinical Laboratory Diagnosis and Technological Advancements -- 6.1 Introduction -- 6.2 Difficulty in Diagnosis -- 6.3 Conventional Diagnostic Tests -- 6.4 Microscopy -- 6.4.1 ZN Staining (Hot) -- 6.4.2 Kinyoun (Cold) -- 6.5 Auramine Flourochrome -- 6.5.1 Culture -- 6.6 Serological Tests -- 6.7 Technological Advances in Diagnosis of Spinal TB -- 6.8 Molecular Testing Methods -- 6.9 Nucleic Acid Probes -- 6.10 In Situ Hybridization -- 6.11 Nucleic Acid Amplification (NAA) Methods -- 6.11.1 Xpert MTB/RIF Test -- 6.11.2 Multiplex PCR -- 6.12 Nanotechnology -- References -- Chapter 7: Microbiological Diagnosis of Spinal Tuberculosis -- 7.1 Introduction -- 7.2 Samples To Be Sent for Microbiological Investigations.

7.3 Microbiological Investigations -- References -- Chapter 8: Radiology in TB Spine (X-rays, Ultrasound, CT, MRI) -- 8.1 Paradiscal Type -- 8.2 Central Type -- 8.3 Anterior Type -- 8.4 Appendiceal Type -- 8.5 Computed Tomography -- 8.6 MRI -- 8.7 Cord Changes -- 8.8 Cord Changes in Chronic Disease -- 8.9 Atypical Spinal Tuberculosis: [5, 35] -- 8.10 Post-Treatment Follow Up -- 8.10.1 Conventional Radiograph -- 8.11 MRI -- 8.12 Differential Diagnosis -- References -- Chapter 9: Role of Nuclear Medicine in TB Spine -- 9.1 Introduction -- 9.2 Spect Imaging -- 9.2.1 Skeletal Scintigraphy -- 9.2.2 Gallium-67-Citrate Scintigraphy -- 9.2.3 Scintigraphy with Autologous Radiolabeled Leukocytes -- 9.3 PET Imaging -- 9.3.1 PET/CT in Diagnosis -- 9.3.2 PET/CT for Staging -- 9.3.3 Response assessment -- 9.3.4 PET/MRI in Spinal Tuberculosis -- 9.4 Conclusion and Future Perspectives -- References -- Chapter 10: FNAC and Biopsy Techniques in TB Spine -- 10.1 Introduction -- 10.2 Anatomical Factors -- 10.3 Pre-Procedural Evaluation -- 10.4 Procedural Details -- 10.5 Instrumentation -- 10.5.1 MRI-Compatible Needles -- 10.5.2 Robotically Driven FNAC/Biopsy -- 10.6 Aseptic and Safety Precautions -- 10.7 Positioning and Needle Access -- 10.8 Methods of Image Guidance -- 10.9 Radiation Exposure and Prevention -- 10.10 Conclusion -- References -- Chapter 11: Differential Diagnosis of Spinal Infections -- 11.1 Diagnosis of Spinal Infections -- 11.2 Imaging -- 11.2.1 Plain Radiographs -- 11.2.2 Scintigraphy -- 11.2.3

Computer Tomography (CT) -- 11.2.4 Magnetic Resonance Imaging -- 11.2.5 Positron Emission Tomography (PET) Scan -- 11.3 Differential Diagnosis of Spinal Infections -- 11.3.1 Spinal Trauma -- 11.3.2 Degenerative Disc Disease (DDD) -- 11.3.3 Spinal Tumors -- 11.3.4 Charcot Joint of Spine -- 11.4 Conclusion -- References -- Chapter 12: TB Spine in Children.

12.1 Introduction -- 12.2 Development of Vertebral Column -- 12.3 Pathophysiology -- 12.4 Clinical Presentation -- 12.5 Deformity -- 12.5.1 Cervical Spine TB in Children -- 12.6 Investigations -- 12.6.1 Imaging -- 12.7 Treatment -- 12.7.1 Chemotherapy -- 12.7.2 Surgical Management -- 12.7.3 Kyphotic Correction Surgery in Healed TB -- 12.8 Summary -- References -- Chapter 13: The Medical Management of Spinal Tuberculosis -- 13.1 Introduction -- 13.2 History and Evolution of Anti-tubercular Treatment -- 13.3 Principles of Multidrug Anti-tubercular Therapy -- 13.4 First-Line Drugs -- 13.4.1 Isoniazid (INH) -- 13.4.2 Rifampicin (RIF) -- 13.4.3 Pyrazinamide (PZA) -- 13.4.4 Ethambutol (EMB) -- 13.4.5 Streptomycin (SM) -- 13.5 Second-Line Drugs, Adverse Effects, Monitoring -- 13.5.1 Fluoroquinolones -- 13.5.2 Aminoglycosides -- 13.5.3 Cycloserine -- 13.5.4 Ethionamide/Prothionamide -- 13.5.5 Para-aminosalicylic Acid (PAS) -- 13.6 Newer Drugs -- 13.6.1 Bedaquiline -- 13.6.2 Delamanid -- 13.7 Immunomodulators -- 13.7.1 Cytokines -- 13.8 RNTCP and DOTS -- 13.9 WHO Guidelines -- 13.10 Endpoint of Treatment -- 13.11 Conclusion -- References -- Chapter 14: Multidrug Resistance and Extensively Drug-Resistant Tuberculosis: Diagnosis and Management Protocols -- 14.1 Definitions and Historical Perspective -- 14.2 Incidence -- 14.3 Causes of Drug Resistance -- 14.4 Diagnosis of MDR and XDR -- 14.5 Medical Treatment -- 14.6 Surgical Treatment -- 14.7 Treatment Outcomes -- 14.8 Conclusion -- 14.9 Atypical Spinal TB -- References -- Chapter 15: Complications and Management in Tuberculosis of the Spine -- 15.1 Introduction -- 15.2 Cold Abscesses -- 15.3 Neurologic Deficits -- 15.4 Kyphotic Deformity -- 15.5 Challenges in Late-Onset Tuberculosis Symptoms -- 15.6 Adverse Drug Reactions -- 15.7 Medicolegal Issues -- 15.8 Conclusion -- References.

Chapter 16: Surgical Management of TB Spine: Indications and Overview with Postoperative Protocols -- 16.1 Introduction -- 16.1.1 Techniques -- 16.1.2 Cervical Spine -- 16.1.3 Thoraco-lumbar Spine -- 16.1.4 Simultaneous Anterior and Posterior Approach -- 16.1.5 Postero-lateral Approach (Transforaminal) -- 16.1.6 Approaches Lumbo-sacral Spine -- 16.2 Postoperative Protocol -- References -- Chapter 17: Surgical Management of Cervical Spine Tuberculosis -- 17.1 Introduction -- 17.2 Indications for Surgery -- 17.2.1 Failure of Medical Management -- 17.2.2 Extent of Disease -- 17.2.3 Neurologic Deficits -- 17.2.4 Instability and Deformity -- 17.3 Craniovertebral Junctional Tuberculosis -- 17.3.1 Management of AATB -- 17.3.2 Classification Systems -- 17.3.3 Classification of Disease and Decision-Making -- 17.3.4 Surgical Intervention -- 17.3.4.1 Indications -- 17.3.4.2 Need for Tissue Sampling for Confirmation -- 17.3.4.3 Surgical Approaches -- 17.3.5 Authors' Preferred Approach -- 17.4 Sub-axial Tuberculosis (SACTB) -- 17.4.1 Principles of Imaging -- 17.4.2 Classification Systems -- 17.4.3 Surgical Indications -- 17.4.4 Approaches and Surgical Techniques -- 17.5 Cervicothoracic Tuberculosis -- 17.5.1 Clinical Outcome of CTB -- 17.5.2 Long-Term Outcome in AATB -- 17.5.3 Long-Term Outcome in SACTB -- 17.6 Conclusion -- References -- Chapter 18: Anterior Surgical Approaches: TB Spine -- 18.1 Background -- 18.2 Surgical Technique -- 18.2.1 Mid Thoracic -- 18.2.1.1 Anterior Trans-thoracic [5] -- 18.2.1.2

Anterolateral Extra-pleural (Costotransversectomy) Decompression [6]
 -- 18.2.2 Upper Cervical [7] -- 18.2.2.1 Lower Cervical [8] -- 18.2.3
 Upper Thoracic [9] -- 18.2.4 Lumbo-sacral -- 18.2.4.1 Extra-
 peritoneal [10, 11] -- 18.2.4.2 Transperitoneal Hypogastric Approach
 [12] -- 18.2.5 Minimal Invasive.
 18.2.5.1 Navigation-Assisted Minimally Invasive Direct Lateral
 Interbody Fusion in Lumbar Tuberculosis [13].

3. Record Nr.	UNISANNIOMIL0417874
Autore	Fenelli, Giovanni B.
Titolo	Piastre circolari di fondazione / G. B. Fenelli, G. Russo
Pubbl/distr/stampa	Benevento, : Hevelius, \1999!
ISBN	888697714X
Descrizione fisica	77 p. : ill. ; 23 cm
Collana	Argomenti di ingegneria geotecnica ; 11
Altri autori (Persone)	Russo, Giampiero
Disciplina	624.1 624.15
Soggetti	PIASTRE CIRCOLARI Fondazioni
Collocazione	COLL. ITA. ADIG
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
