Sommario/riassunto	The book deals with technological governance of cyberspace and threat

landscape, with a special focus on the Indian context. It provides a historical and chronological understanding of cyber threats across the world, and their impact on the nation-states. It places the cyber technological paradigms and platforms in various theoretical frameworks. The core section of the book deals with the cyber technological paradigms, i.e., governance, policing, and diplomacy in Digital India. The scenario of artificial intelligence (AI) in India is also dealt with, comparing AI in India with those of international actors. The book analyses in detail, the overall structural and institutional frameworks, entailing the need to leap towards what is considered as Reimagining India. It provides policy recommendations and suggestions on improving various actions, initiatives and resilience related taken in order to deal with the chaotic features of cyber technological threat landscape in India.
