Sommario/riassunto

This book explains the past, present, and future of textile, fashion, apparel, and related majors of South Asian countries. The chapters express the hidden potential of textiles in South Asia. In this book, experts in textile engineering of each country describe the potential and prospects of textile education and how it can lead to internationalization. The book contains updated new illustrations, images, data, graphs, and tables. It also discusses the textile university alliance and the potential for international education related to textiles in the developing region.
