

1. Record Nr.	UNINA9910743376803321
Titolo	Chronic Rhinosinusitis : The mucosal concept / / edited by Luo Zhang, Claus Bachert
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2022
ISBN	981-16-0784-2 981-16-0783-4
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (429 pages)
Disciplina	616.212
Soggetti	Otolaryngology Otorhinolaryngology Sinusitis Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- Epidemiology and Impact of CRS -- Genetics and Epigenetics of CRS -- Mechanisms -- Phenotypes of CRS -- Endotypes of CRS -- Co-morbidities of CRS -- Diagnosis -- Associated Auto-Immune Disorders -- Pediatric CRS -- Differential Diagnosis -- Medical Treatment -- Surgical Approaches -- Innovative Treatments and Management -- Unmet Needs, Future Directions for Investigation and Innovation.
Sommario/riassunto	Chronic rhinosinusitis (CRS) is one of the most common health care complaints, with the prevalence of 5-12% worldwide. This book aims to present the new findings in mechanism, diagnosis and management of this widespread condition to clinical practitioners. All practical information about CRS is compiled; therefore busy clinicians would not have to perform exhaustive literature studies to diagnose CRS. This book firstly presents the advances in the understanding of epidemiology, genetics, mechanisms, phenotypes, and immunology of this disorder. In the following chapters, details in clinical diagnosis of CRS are summarized, especially clinical characteristics in paediatric CRS. Later chapters introduce medical, surgical, and innovative treatments of CRS, with brief case studies. The role of allergies,

asthma, allergic fungal rhinosinusitis, and systemic diseases are also discussed. With the illustrative figures, this book is a comprehensive and quick reference to otolaryngologists, paediatricians, family care physicians, allergists, professional clinical staff, and medical students.
