| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references. |
| Nota di contenuto | Introduction / Richard Brown -- ; Part I: First-Person Data and the Science of Consciousness. An Epistemology for Phenomenology? / Ruth Garrett Millikan -- From Phenomenology to the Self-Measurement Methodology of First-Person Data / Gualtiero Piccinini, Corey J. Maley -- ; Part II: Phenomenal Properties and Dualism. Consciousness and the |

Introspection of 'Qualitative Simples' / Paul M. Churchland --
Churchland on Arguments Against Physicalism / Torin Alter --
Response to Torin Alter / Paul M. Churchland -- ; Part III: Property
Dualism and Panpsychism. Orthodox Property Dualism+The Linguistic
Theory of Vagueness=Panpsychism / Philip Goff -- A Wake Up Call /
William S. Robinson -- What Is Acquaintance with Consciousness? /
Jonathan Simon -- Reply to Simon and Robinson / Philip Goff -- ; Part
IV: Naive Realism, Hallucinations, and Perceptual Justification. It's Still
There! / Benj Hellie -- Perceptual Justification Outside of
Consciousness / Jacob Berger -- Some Thoughts About Hallucination,
Self-Representation, and "There It Is" / Jeff Speaks -- But Where Is a
Hallucinator's Perceptual Justification? / Heather Logue -- Yep--Still
There / Benj Hellie -- ; Part V: Beyond Color-Consciousness. Black and
White and Colour / Kathleen A. Akins -- What Is Visual and Phenomenal
but Concerns Neither Hue Nor Shade? / Pete Mandik -- ; Part VI:
Phenomenal Externalism and the Science of Perception. The Real
Trouble with Phenomenal Externalism: New Empirical Evidence for a
Brain-Based Theory of Consciousness / Adam Pautz -- No Problem /
David Hilbert and Colin Klein -- Ignoring the Real Problems for
Phenomenal Externalism: A Reply to Hilbert and Klein / Adam Pautz -- ;
Part VII: The Ontology of Audition -- What We Hear / Jason Leddington
-- Audible Independence and Binding / Casey O'Callaghan --
Commentary on Leddington / Matt Nudds -- ; Part VIII: Multi-Modal
Experience. Making Sense of Multiple Senses / Kevin Connolly --
Explaining Multisensory Experience / Matthew Fulkerson -- ; Part IX:
Synesthesia. Seeing as a Non-Experiential Mental State: The Case from
Synesthesia and Visual Imagery / Berit Brogaard -- Synesthesia: An
Experience of the Third Kind? / Ophelia Deroy -- Varieties of
Synesthetic Experience / Berit Brogaard -- ; Part X: Higher-Order
Thought Theories of Consciousness and the Prefrontal Cortex. Not a
HOT Dream / Miguel Angel Sebastian -- Sweet Dreams Are Made of
This? A HOT Response to Sebastian / Josh Weisberg -- The dIPFC is not
a NCHOT: A Reply to Sebastian / Matthew Ivanowich -- I Cannot Tell
You (Everything) About My Dreams: Reply to Ivanowich and Weisberg /
Miguel Angel Sebastian.

Sommario/riassunto

This volume is product of the third online consciousness conference,
held at <http://consciousnessonline.com> in February and March 2011.
Chapters range over epistemological issues in the science and
philosophy of perception, what neuroscience can do to help us solve
philosophical issues in the philosophy of mind, what the true nature of
black and white vision, pain, auditory, olfactory, or multi-modal
experiences are, to higher-order theories of consciousness,
synesthesia, among others. Each chapter includes a target article,
commentaries, and in most cases, a final response from the author.
Though wide-ranging all of the papers aim to understand
consciousness both from the inside, as we experience it, and from the
outside as we encounter it in our science. The Online Consciousness
Conference, founded and organized by Richard Brown, is dedicated to
the rigorous study of consciousness and mind. The goal is to bring
philosophers, scientists, and interested lay persons together in an
online venue to promote high-level discussion and exchanging of
views, ideas and data related to the scientific and philosophical study
of consciousness.

Physiology -- Chapter 9. Immunology -- Chapter 10. Ecology and Evolution of Parasites Ecology of Parasites -- Chapter 11. Control. |
| Sommario/riassunto | This book comprehensively reviews various vector-borne diseases and their control methods. It discusses morphology, life history, and pathogenicity of protozoan and helminth parasites. Further, it analyzes host-parasite interactions and their adaptation within the host system for understanding parasitic infections. The book discusses the complex |

life cycle, biochemical adaptations, and molecular biology of the parasites. It investigates the immunological response to different infectious agents and explores new targets for combined therapeutic approaches. It also summarizes the evolution of parasitism and the ecology of parasites of the different phylum. Lastly, it provides information on vector biology emphasizing the role of basic vector research in developing future disease control methods and improving upon the existing approaches.
