

1. Record Nr.	UNINA9910743393503321
Titolo	Regional Development Planning and Practice : Contemporary Issues in South Asia // edited by Mukunda Mishra, R. B. Singh, Andrews José de Lucena, Soumendu Chatterjee
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2022
ISBN	981-16-5681-9 981-16-5680-0
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (444 pages)
Collana	Advances in Geographical and Environmental Sciences, , 2198-3550
Disciplina	338.95
Soggetti	Geography Sustainability Economic policy Social policy Political planning Human geography Regional Geography Socio-Economic Policy Public Policy Human Geography
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Sustainable Regional Development with Environmental Practices -- Geopolitics of Sustainable Development -- The Transversal and Territorial Praxis of Regional Development -- Regional Development and Sustainable Responses to Climate Change and other Environmental Issues in Sri Lanka -- Regional Planning Strategy to Sustainable Development in Nepal -- Consequences of Dislocation and Involuntary Migration: Some Lessons from the Teesta River Bank Erosion Affected Communities -- Micro-Spatial Analysis of Rural Accessibility for Imbricating Regional Development: Exemplifying an Indian District -- Managing the Regional Inequalities in India with Particular Reference to the Transformation of Aspirational Districts Programme --

Understanding the Disability Divides in India: A Spatio-temporal Analysis with District-level Datasets -- How Far Gender Inequality Suppresses Human Development: Evidence from India -- Association of Morbidity among Children with Housing, Water, Sanitation Conditions in Urban India: A Policy Perspective -- Urban Heat Island Formation in Relation to Land Transformation: A Study on a Mining Industrial Region of West Bengal -- Housing Conditions with Reference to Seepage in Different Residential Localities in Mumbai -- Livelihood of the Displaced: A Study on Selected Areas of Bangladeshi Immigrants in West Bengal, India -- Household Vulnerability of Tribal People to Climate Change in the Part of Dooars Region, West Bengal, India -- Exploring the Options for Sustainable Livelihood in the Indian Sunderbans: An Attempt through Contingent Valuation Method.

Sommario/riassunto

This book, through a bunch of systematic and analytical notes and scientific commentaries, acquaints the readers with the innovative methods of regional development, measurement of the development in regional scale, regional development models, and policy prescriptions. Conceptualizing development as a regional process is a geographer's brainchild, and the sense of region has long been rooted deeply in the fundamental research practices that geographers are accustomed to. The geographical perspective of regions entails conceptualizing them nested horizontally as the formal region and hierarchical relationships in space with spatial flows or interactions as the functional region. In geographical research, the region works as a tool by serving as a statistical unit of analysis. More importantly, however, regions serve as the fundamental spatial units of management and planning by specifying a territory or a part of it for which a certain spatial development or regulatory plan is sought. This book addresses the complex processes in different regions of the world, particularly South Asia, to perceive the regional development planning involved and the sustainable management practiced there. The book is a useful resource for socio-economic planners, policymakers, and policy researchers. .
