Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Complicated Corneal and Scleral Rupture -- Traumatic Cyclodialysis -- Traumatic Aniridia -- Traumatic Dislocation of Lens -- Intraocular hemorrhage -- Open Globe Injury with Choroidal and Retinal Detachment -- Choroidal and Retinal Detachment combined with Cyclodialysis In Open Globe Injury -- Repairment of Traumatic Choroidal Tear -- Complicated Ocular Trauma with Corneal Opacity -- Traumatic Giant Macular Hole -- Posterior Polar Ocular Perforating Injury -- Giant Intraocular Foreign Body -- Orbital Foreign Body -- Traumatic Glaucoma -- Traumatic Endophthalmitis -- Permanent silicon oil tamponade -- Contusion of optic nerve and Fracture of optic canal -- Severe Orbital Fracture -- Traumatic Globe Luxation -- Complicated Blepharal trauma -- Severe Ocular Chemical Injury -- Ocular Laser Burns -- Pediatric Ocular Trauma.
Sommario/riassunto	This book is aimed at illustrating the common complicated ocular trauma with typical signs, examinations, surgical procedures and conservative management to clinical practitioners including the nurses, medical students, residents, fellows and ophthalmologists, and help them make the most appropriate decision on the diagnosis and management of such patients. There are 23 chapters introduced in the book, which covers all types of complicated ocular trauma with brief

case reports combined with the most comprehensive pictures. For each disease, a brief introduction, explanation as well as management are offered to the readers. With the illustrative figures and explanations, the goal of making the right diagnose, offering the best advice or treatment to the patients, and understanding surgical procedures would be easily achieved. This book is useful for readers to be fully prepared for the challenge of complicated ocular traumatic cases. This is the fifth volume of the book series Ocular Trauma.
