Sommario/riassunto	This book gathers papers addressing state-of-the-art research in all areas of information and communication technologies and their applications in intelligent computing, cloud storage, data mining and software analysis. It presents the outcomes of the Seventh International Conference on Information and Communication Technology for Intelligent Systems (ICTIS 2023), held in Ahmedabad, India. It discusses

the fundamentals of various data analysis techniques and algorithms,  
making it a valuable resource for researchers and practitioners alike.
