

1. Record Nr.	UNINA9910746291903321
Titolo	Advances in IoT and Security with Computational Intelligence . Volume 1. : Proceedings of ICAISA 2023 // Anurag Mishra, Deepak Gupta, and Girija Chetty, editors
Pubbl/distr/stampa	Singapore : , : Springer, , [2023] ©2023
ISBN	981-9950-85-6
Edizione	[First edition.]
Descrizione fisica	1 online resource (411 pages)
Collana	Lecture Notes in Networks and Systems Series ; ; Volume 755
Disciplina	004.678
Soggetti	Artificial intelligence Computer security Internet of things Internet of things - Security measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	An Automatic Decision Support System for Assessing SDG Contributions -- Removing Stegomalware from Digital Image Files -- Entropic Analysis of Reservation Policy of Government of India -- Cybersecurity in the Supply Chain and Logistics Industry: A Concept-Centric Review -- Machine Learning Methodology for the Recognition of Unsolicited Mail Communications -- IoT-Based Automated Hydroponic Cultivation System: A Step Toward Smart Agriculture for Sustainable Environment.
Sommario/riassunto	The book is a collection of peer-reviewed best-selected research papers presented at the International Conference on Advances in IoT and Security with AI (ICAISA 2023), organized by Deen Dayal Upadhyaya College, University of Delhi, New Delhi, India, in collaboration with University of Canberra, Canberra, Australia, and NIT, Arunachal Pradesh, Itanagar, AP, India, during March 24–25, 2023. The book includes various applications and technologies in this specialized sector of Industry 4.0. The book is divided into two volumes. It focuses on recent advances in Internet of Things and security with its applications using artificial intelligence.
