The Transformation of Parco Bassini in Milan: A Case Study -- Introduction -- A Park for the City: Elements for a Scenario.

The Geography of Social Movements: Place, Network, and Scale -- Research Methods -- Conflict Analysis: Spaces, Actors, and Policies -- Discussion and Conclusions -- Appendix -- Semi-structured Interviews: Grid of Questions -- References -- A Geographical Approach to European Cargo Airports -- Introduction: Air Cargo and Geography -- Specific Factors of Air Cargo Transport -- General Patterns of Cargo Airport Locations -- Air Cargo Transport in Times of Global Pandemic and Global Change -- Looking at European Air Cargo Geographies -- Cargo-Only Airports in Europe: Illustrative Examples -- Leipzig/Halle (Germany) -- Liège (Belgium) -- Luxembourg -- Zaragoza (Spain) -- Prospects and Conclusions -- References -- Conflicting Interests in Transport Infrastructure Planning: Theoretical Approaches and Practical Implications of Conflict Management in Planning Processes -- Introduction -- Sources of Spatial Conflicts: Social Construction of Space, Spatial Justice, and the Particularities of Highway Planning -- Defining Spatial Conflicts

Through Social Construction of Space -- Space as a Limited Resource: Access to Space and the Question of Spatial Justice -- Highway Planning and Wicked Problems -- Conflict Management in Theoretical Planning Models with Empirical References to the Third Development Axis Highway, Slovenia -- Rational/Comprehensive Approach -- Communicative Approach -- Agonistic Approach -- Interrogating Conflict Management in Planning Processes: Analytical and Practical Implications for Highway Planning -- The Change of Focus from Public Oppositions to the Entire Spectrum of Conflicting Interests -- Conflict Management as an Integral Part of Planning Processes Rather Than One-Time Inclusionary Event: Implications for Context-Dependent Adaptive Planning Practice -- Active Citizenship and Its Contribution to Conflict Management.
Concluding Thoughts -- References -- Spatial Distribution of Land Cover in North Eastern Region of India: An Appraisal Using Geospatial Technology -- Introduction -- Methodology -- Study Area -- Remote Sensing Data Sources -- Methods -- Results and Discussion -- A General Distribution Pattern of Land Cover -- State-Wise Distribution Pattern of Land Cover -- Elevation-Wise Distribution Pattern of Land Cover -- Observing Land Cover Distribution Within Capitals' Buffer Area -- Temporal Change of Land Cover in the Study Area -- Conclusion -- References -- Assessment of the Potential of Viticultural Areas in Serbia as Smart Tourist Destinations -- Introduction -- Literary Review -- Study Area -- Methodology -- Analysis of Results -- Conclusion -- References -- Index.

Sommario/riassunto

This book shows an updated overview of research about human geography topics like urban growth/urban challenges, transportation, landscape, land cover, geospatial analysis, regional planning/local development, cultural geography, tourism, and so on. Between 2020 and 2022, due to COVID-19 and lockdowns worldwide, there were fewer opportunities for young and upcoming researchers to present their state-of-the-art findings at conferences. In order to highlight exceptional research of young geographers during this time, the idea for this book was created. In collaboration with the EGEA alumni foundation for students and young geographers, 12 authors were selected to showcase their scientific work. In addition to that, most of them present amazing maps and figures as outstanding expression of the need of GIS for geography research.
