Disciplina	220.6/01
Soggetti	Hermeneutics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [201]-215) and indexes.
Nota di contenuto	Contents; Series Editor's Preface; Abbreviations; List of Contributors; INTRODUCTION; Part I: REFLECTIONS ON INDETERMINACY AND HERMENEUTICAL JUDGMENT; Integral and Differential Hermeneutics; Toward a Postmodern Hermeneutica Sacra: Guiding Considerations in Choosing between Competing Plausible Interpretations of Scripture; Scriptural Criticism as a Practice of Biblical Studies: Conceiving a Commentary on Romans; Culture and Intersubjectivity as Criteria for Negotiating Meanings in Cross-Cultural Interpretations; Part II: CASE STUDIES IN INDETERMINACY AND HERMENEUTICAL JUDGMENT Liberation and OppressionViolence; Exclusion and Embrace; Bibliography; Index of References; Index of Authors; A; B; C; D; E; F; G; H; I; J; K; L; M; N; O; P; Q; R; S; T; V; W; Y; Z
Sommario/riassunto	The Meanings We Choose is an engagement with responsible bible reading-Hebrew Bible/Old Testament and New Testament texts-for the past as well as for the present and future. Its stated perspectives are multi-denominational Christian but the implications of such readings go far beyond a specific confessional framework. In the present political climate the aware, responsible "personal" is meaningful for any community, confessedly religious as well as otherwise. While the

articles collected in this volume, broadly speaking, can and perhaps should be compartmentalized as ideological criticism, the

Nota di contenuto	Anatomy and Physiology of the Breast -- Basic Histopathology of Breast Lesions -- Aspiration Techniques -- Liquid-Based Cytology and Cell Block in Breast Lesions -- Cytologic classification and reporting systems -- Inflammatory Lesions of the Breast -- Fibrocystic Changes and Cysts -- Fibroadenoma -- Other Fibroepithelial Lesions -- Cytology of Epithelial Proliferative Lesions and High-Grade Ductal Carcinoma In Situ -- Papillary Lesions of the Breast -- Mucinous Lesions -- Carcinoma and Variants -- other uncommon lesions -- Assessment of Axillary Nodes -- Special Ancillary Techniques : Immunohistochemistry -- Molecular Studies and novel modalities -- Comparison of Aspiration and Core Needle Biopsy -- Future Directions.
Sommario/riassunto	This book provides a detailed update on all aspects of fine-needle aspiration cytology of breast lesions. It will serve as an up-to-date reference and atlas on new entities in breast pathology, including classic benign and malignant lesions, in accordance with current classification schemes and staging protocols. Emphasis is placed on

description of characteristic diagnostic features as well as common cytological pitfalls. Correlation of cytology with histology is achieved through cyto-histological illustrations, enabling readers to gain a good understanding of the morphologic features of various lesions. Core-needle biopsy and fine-needle aspiration cytology are compared in depth, with attention to their relative strengths and weaknesses and indications. In addition, the impact of molecular classification of breast cancers on cytologic diagnosis is explored, and the use of molecular techniques and artificial intelligence in diagnostic cytology is discussed.
