Titolo	Ground Truths : Community-Engaged Research for Environmental Justice // ed. by Martha Matsuoka, Chad Raphael
Pubbl/distr/stampa	Berkeley, CA : , : University of California Press, , [2024] ©2024
ISBN	9780520384347 0520384342
Edizione	[1st ed.]
Descrizione fisica	1 online resource (338 p.)
Disciplina	304.28
Soggetti	Environmental justice - United States Political participation - United States Research - United States NATURE / Environmental Conservation & Protection
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Frontmatter -- Contents -- Introduction -- Part 1: Foundations -- 1. Environmental Justice -- 2. Community-Engaged Research -- Part 2: Collaborations -- 3. Preparation for Community-Engaged Research -- 4. The Community-Engaged Research Process -- 5. Transforming Academia for Community-Engaged Research -- Part 3: Applications -- 6. Research Methods and Methodologies -- 7. Law, Policy, Regulation, and Public Participation -- 8. Community Economic Development -- 9. Public Health -- 10. Food Justice and Food Sovereignty -- 11. Urban and Regional Planning -- 12. Conservation -- References -- List of Contributors -- Index
Sommario/riassunto	A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminoso.org to learn more. This is the first book devoted entirely to summarizing the body of community-engaged research on environmental justice, how we can conduct more of it, and how we can do it better. It shows how community-engaged research makes unique contributions to environmental justice for Black, Indigenous, people of color, and low-income communities by centering local knowledge,

building truth from the ground up, producing actionable data that can influence decisions, and transforming researchers' relationships to communities for equity and mutual benefit. The book offers a critical synthesis of relevant research in many fields, outlines the main steps in conducting community-engaged research, evaluates the major research methods used, suggests new directions, and addresses overcoming institutional barriers to scholarship in academia. The coauthors employ an original framework that shows how community-engaged research and environmental justice align, which links research on the many topics treated in the chapters—from public health, urban planning, and conservation to law and policy, community economic development, and food justice and sovereignty.
