| Edizione | [1st ed. 2023.] |
| Descrizione fisica | 1 online resource (293 pages) |
| Disciplina | 060 |
| Soggetti | Application software - Development |
| | Web applications - Programming |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Includes index. |
| Nota di contenuto | Day 1: Creating a React Component -- Day 2: Writing JSX Code in a React Component -- Day 3: Handling Events with React -- Day 4: Using React Hooks -- Day 5: Managing a Task List with React -- 6: JavaScript Reminders. |
| Sommario/riassunto | Do you dream of learning React without spending months in endless tutorials? Then this book is for you! In just five days, you will acquire the fundamental skills to start developing exceptional applications using this revolutionary technology. Whether you prefer to follow the book independently or alongside other online resources, it will provide you with a solid foundation to harness the full potential of React. Immerse yourself in an accelerated learning method that will allow you to make giant strides. Chapters are carefully designed to teach you the essential concepts of React, such as components, props, state, events, lifecycle, and hooks, without wasting time on complex explanations. Thanks to a clear and accessible writing style, you'll be able to dive into the intricacies of React from the first page. Code examples are accompanied by detailed explanations, enabling you to quickly grasp the subtleties of this technology. You don't need to be an expert in programming; the book is suitable for all levels, from beginners to more experienced developers looking to get up and running with React. You'll create React applications, reinforcing your understanding and |

consolidating your skills. You will be amazed at how quickly you progress with this hands-on approach that includes practical exercises to apply what you learn immediately. Don't wait any longer and dive into this exciting adventure right now. Master React in 5 Days will open the doors to a world of endless possibilities in web development.
