| Sommario/riassunto | This book examines the nature, scope, and remedies for political corruption in Latin America, with a focus on transparency and governance. It provides in-depth case studies of Chile and Uruguay, |

highlighting their successes in reducing corruption through public procurement reforms, transparency institutions, and international assistance. The authors argue that transparency is essential for corruption control and offer insights into the roles of civil society, the business sector, and international entities in shaping effective policies. The book is intended for policymakers, researchers, journalists, and civil society members interested in combating corruption.
