## Sommario/riassunto

This book continues the discussion from Volume I on the risks organizations face in order to succeed with a special focus on the challenges brought on by the COVID-19 virus crisis. Taking on an interdisciplinary focus, the book brings together research from academics and practitioners from all over the world. Topics considered range from corruption in the health sector and COVID-19, eHealth efforts of countries during the pandemic, and fiscal policies and transparency in data sharing for effective management of the pandemic to a path forward to achieve health for all.
