

1. Record Nr.	UNINA9910760294603321
Autore	Garg Ajay
Titolo	Monitoring Tools for Setting up The Hospital Project : Department-wise Planning / / by Ajay Garg
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2023
ISBN	981-9966-63-9
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (686 pages)
Disciplina	610.6
Soggetti	Medicine - Practice Hospitals - Administration Biomedical engineering Health services administration Public health administration Practice and Hospital Management Medical and Health Technologies Health Care Management Health Administration
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Please refer to the attachments tab. Entrance Lobby -- Emergency Department -- Out Patient Departemnt (OPD) -- Intensive Care Units (ICU) -- Operation Theatre Suite (OT) -- Delivery Room (LDR) -- Intermediate Care Area (IPD) -- Radio Diagnosis -- Clinical Laboratory -- Blood Bank -- Other Investigations & Procedures -- Radiation Therapy -- Rehabilitation and Allied Health Therapies -- Pharmacy Unit -- Central Services Department CSSD) -- Hospital Kitchen -- Laundry -- Medical Record Department (MRD) -- Mortuary -- Administration Area -- Stories -- Engineering and Maintenance Unit.
Sommario/riassunto	Compared to other commercial buildings, hospital buildings are one of the most complex buildings/projects to plan, design, build, and operate. A well-planned set of all the activities involved in construction and setting up the hospital contributes a lot to reducing errors, avoiding modifications, completing a project on time, reducing the

modification costs, decreasing or controlling infection rate, protecting patients and staff from injury, increase patient's recovery rate, and increase staff satisfaction. It is a fact that each hospital project department involves many individual departments, providing services, procurement of equipment, workforce recruitment, licensing, and establishing a set of Standard Operating Procedures (SOPs). Apart from this, it is necessary to start the particular activity well on time to make it a success in the scheduled period. If the start of the activity is delayed, it can delay the total project. It is noticed that the site engineer makes a lot of mistakes while setting up the departments. The reason for such mistakes can be like forgetting any particular activity, not completing the activity on time, etc. In this book, we have tried to address all such issues, detailed all the activities in a tabular form, and explained each activity in detail for the individual department of the hospital. The table also contains the columns to plan the start and end date of the activity. The table will also help assess the activity's progress and the person responsible for such activity. The book has been written keeping in mind the timely completion of all the activities involved in setting up and furnishing the hospital's departments. The book contains all such activities right from the initial setting up of the departments to the final inauguration of the hospital. This book is helpful to the designers, promoters, site engineers, architects, and engineers in planning the activity, its start and end, linking it with other activities, monitoring the activity, etc., well in advance. As the book is in very easily understandable English language, it may be a great help to students of Hospital Management, Para Medical Sciences, Architecture, Site Engineers, Site Supervisors, Hospital Promoters, Planners, and Designers.
