Livello bibliografico	Monografia
Nota di contenuto	; Part 1. -- Making climate smart agriculture real in Africa -- ; Part 2. -- Mainstreaming of conservation agriculture -- ; Part 3. -- Research for conservation agriculture systems development -- ; Part 4. -- Education and training for conservation agriculture -- ; Part 5. -- Investing for agricultural transformation -- ; Part 6. -- The future.
Sommario/riassunto	Conservation Agriculture (the use of no tillage systems) to preserve soil structure and integrity has become an increasingly important step towards sustainable farming. This book brings together conservation agriculture and climate smart decision making processes for the first

time, focusing on Africa.
