Nertz -- Cosmological battles : understanding susceptibility and resistance to transnational Islamic revivalism in Java / Thomas Reuter -- Modes of interreligious coexistence and civility in Maluku / Birgit Brauchler -- Ethnicity and violence in Bali : and what Barong Landung says about it / Volker Gottowik -- Contested Moksa in Balinese Agama Hindu : Balinese death rituals between ancestor worship and modern Hinduism / Annette Hornbacher -- Good girls : Christianity, modernity and gendered morality in Tanah Karo, North Sumatra / Karin Kline -- Bukit Kasih, the Hill of Love : multireligiosity for pleasure / Judith Schlehe.
Sommario/riassunto	Modernity is surrounded by an almost magic aura that casts a spell over people all over the world. To connect with modernity, various ways

and means are used, among them magic practices and religious ideas. Dynamics of Religion in Southeast Asia: Magic and Modernity deals with the magic in and of modernity and asks about its current significance for the dynamics of religion in Southeast Asia. Drawing on recent ethnographic research in this area, the contributors to this wide-ranging volume demonstrate how religious concepts contribute to meeting the challenges of modernity. Against this background, religion and modernity are no longer perceived as in contradiction; rather, it is argued that a revision of the western notion of religion is required to understand the complexity of 'multiple modernities' in a globalised world. Dynamics of Religion in Southeast Asia: Magic and Modernity is part of the series Global Asia, published by Amsterdam University Press (AUP) in close collaboration with the International Institute for Asian Studies (IIAS)

Livello bibliografico	Monografia
Sommario/riassunto	"This handbook provides a comprehensive overview and cutting-edge assessment of community forestry. Containing contributions from academics, practitioners and professionals, the Routledge Handbook of Community Forestry presents a truly global overview with case studies drawn from across Africa, Asia, Europe and the Americas. The Handbook begins with an overview of the chapters, and a discussion of the concept of community forestry and the key issues. Topics as wide-ranging as Indigenous forestry, conservation and ecosystem management, relationships with industrial forestry, trade and supply systems, land tenure and land grabbing and climate change are addressed. The Handbook also focuses on governance, looking at the range of approaches employed, including multi-level governance and rights-based approaches, and the principal actors involved from local communities and Indigenous peoples to governments and national and international non-governmental organisations. The Handbook reveals the importance of the historical context to community forestry and the effects of power and politics. Importantly, the Handbook not only

focuses on successful examples of community forestry, but also addresses failures in order to highlight the key challenges we are still facing and potential solutions. The Routledge Handbook of Community Forestry is essential reading for academics, professionals and practitioners interested in forestry, natural resource management, conservation and sustainable development"--
