

1. Record Nr.	UNINA9910764255203321
Autore	Manfredi Claudia
Titolo	Models and Analysis of Vocal Emissions for Biomedical Applications : 13th International Workshop, September, 12-13 2023
Pubbl/distr/stampa	Florence : , : Firenze University Press, , 2023 ©2023
Edizione	[1st ed.]
Descrizione fisica	1 online resource (116 pages)
Collana	Proceedings e Report ; ; v.136
Soggetti	Voice disorders Speech - Physiological aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The International Workshop on Models and Analysis of Vocal Emissions for Biomedical Applications (MAVEBA) came into being in 1999 from the particularly felt need of sharing know-how, objectives and results between areas that until then seemed quite distinct such as bioengineering, medicine and singing. MAVEBA deals with all aspects concerning the study of the human voice with applications ranging from the newborn to the adult and elderly. Over the years the initial issues have grown and spread also in other fields of research such as occupational voice disorders, neurology, rehabilitation, image and video analysis. MAVEBA takes place every two years in Firenze, Italy. This edition celebrates twenty-four years of uninterrupted and successful research in the field of voice analysis.
