Sommario/riassunto	Discover a transformative book that equips aspiring 'researcher entrepreneurs' with invaluable strategies to avoid common start-up

mistakes. Unveiling a fresh perspective, it emphasizes that technological researchers already possess critical entrepreneurial traits, merely needing the right approach to succeed. From preparing and setting up a tech start-up to illuminating best practices, this book sets you on the path to triumphant technological entrepreneurship. This essential guide tackles the paradox of start-up failures, even after a very promising start, providing insights into how to overcome internal and external problems and obstacles and secure a thriving future. Tailored for researchers aiming to commercialize their technology by setting up a start-up and for technology transfer strategists supporting academic commercialization, the book ensures clarity by avoiding jargon and employing real-life case studies and exercises. Decision-assisting activities such as a "Commercialization Readiness Index (CRI)" and a "Market-prioritization Decision Matrix" offer valuable tools to help a researcher become a successful entrepreneur. Whether you're a seasoned researcher or an aspiring entrepreneur, this book will empower you to harness your potential, turning visionary ideas into flourishing businesses. Embrace the entrepreneurial journey and embark on a transformational ride towards success in the dynamic world of technological entrepreneurship.
