Sommario/riassunto	The Statistical Yearbook for Latin America and the Caribbean of ECLAC presents a set of basic statistics on the economic, sociodemographic and environmental situation of the region during a specific time period. This information is part of the statistics available in CEPALSTAT, the statistical databases and publications portal of ECLAC. This edition of the Yearbook includes information available up to mid-December 2013. A new feature this year is the inclusion of regional profiles giving an overview of each area. These offer the reader a thematic regional snapshot with a selected set of indicators.
