Perspective Chapter: Teacher Education in a Multicultural Globalizing World - Field-Based Reflections -- 21. Perspective Chapter: Reflections on the Future of Higher Education in the United Kingdom -- 2. Perspective Chapter: A Systematic Study for Model Management Education toward Problem Based Learning in West Africa -- 23. Perspective Chapter: Toxic Leadership in Higher Education - What We Know, How It Is Handled.

Sommario/riassunto

COVID wrought havoc on the world's economic systems. Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems. Some institutions were prepared for the required transition to online learning. Most were not. Whether prepared or not, educators rose to the challenge. The innovativeness of educators met the challenges as digital learning replaced the face-to-face environment. In fact, some of the distance models proved so engaging that many students no longer desire a return to the face-to-face model. As with all transitions, some things were lost while others were gained. This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century. The book is organized into four sections on "Changing Education", "Education in the Pandemic", "Sustaining University Education", and "Embracing the Future in a Global World". It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process. These discussions shed light on the impact of the pandemic and the future of higher education post-COVID. Higher education has been forever changed, and higher education as it once was may never return. While many questions arise, the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic.
