**Sommario/riassunto**

Zvi Mark uncovers previously unknown and never-before-discussed aspects of Rabbi Nachman's personal spiritual world. The first section of the book, Revelation, explores Rabbi Nachman's spiritual revelations, personal trials and spiritual experiments. Among the topics discussed is the powerful "Story of the Bread," wherein Rabbi Nachman receives the Torah as did Moses on Mount Sinai – a story that was kept secret for 200 years. The second section of the book, Rectification, is dedicated to the rituals of rectification that Rabbi Nachman established. These are, principally, the universal rectification, the rectification for a nocturnal emission and the rectification to be performed during pilgrimage to his grave. In this context, the secret story, "The Story of the Armor," is discussed. The book ends with a colorful description of Bratzlav Hasidism in the 21st century.

**Sommario/riassunto**

This volume contains the proceedings of the Conference on the

Management of collections and co-operation in the hybrid library, which was organised in Florence on 13 October 2005 by the Italian Libraries Association (Tuscan Section and University and Research Committee). The contributions are dedicated in particular to grasping the opportunities and adaptations generated by Internet and the possibility of disseminating electronic documents, both in the development of the collections and the planning of services and in the study of new forms of communication between institutions.
