

1. Record Nr.	UNINA9910765882503321
Autore	Thomson Harriet
Titolo	Energy poverty and vulnerability : a global perspective // edited by Neil Simcock, Harriet Thomson, Saska Petrova and Stefan Bouzarovski
Pubbl/distr/stampa	Taylor & Francis, 2018 New York : , : Routledge, , 2018
ISBN	9781351865296 1351865293 9781315231518 1315231514 9781351865289 1351865285
Edizione	[1st ed.]
Descrizione fisica	1 online resource (282 pages) : illustrations
Collana	Routledge Explorations in Energy Studies
Disciplina	333.79
Soggetti	Energy security Scarcity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Introduction / Stefan Bouzarovski, Neil Simcock, Harriet Thomson, and Saska Petrova -- Energy poverty in an intersectional perspective : on multiple deprivation, discriminatory systems and the effects of policies / Katrin Grossmann and Antje Kahlheber -- Understanding energy poverty through the energy cultures framework / Fatima McKague, Rob Lawson, Michelle Scott, and Ben Wooliscroft -- Transcending the triad : political distrust, local cultural norms and reconceptualising the drivers of domestic energy poverty in the UK / Irena L.C. Connon -- Post-apartheid spatial inequalities and the built environment : drivers of energy vulnerability for the urban poor in South Africa / Abigail J. Knox, Jiska R. De Groot, and Nthabi Mohlakoana -- Water-energy nexus vulnerabilities in China : infrastructures, policies, practices / Alison Browne, Saska Petrova, and Beth Brockett -- Rethinking energy deprivation in Athens : a spatial approach / Evangelia Chatzikonstantinou and Fereniki Vatavali -- Location, location, location

: what accounts for the regional variation of energy poverty in Poland? / Maciej Lis, Agata Miazga, and Katarzyna Salach -- Multiple vulnerabilities? : interrogating the spatial distribution of energy poverty measures in England / Caitlin Robinson, Stefan Bouzarovski, and Sarah Lindley -- The triple-hit effect of disability and energy poverty : a qualitative case study of painful sickle cell disease and cold homes / Anna Cronin de Chavez -- The value of experience : including young people in energy poverty research / Kimberley C. O'Sullivan, Helen Viggers, and Philippa Howden-Chapman -- Energy poverty in the western Balkans: adjusting policy responses to socio-economic drivers / Slavica Robic, Ivana Rogulj, and Branko Ancic -- Lighting up rural Kenya : lessons learnt from rural electrification programmes / Dorice Agol -- Urban energy poverty : South Africa's policy response to the challenge / Peta Wolpe and Yachika Reddy -- Conclusions / Neil Simcock, Harriet Thomson, Saska Petrova, and Stefan Bouzarovski -- Index.

### Sommario/riassunto

Human health and well being are closely intertwined with the ability to access affordable and modern domestic energy services, including heating, cooling, lighting, cooking, and information technology. Energy poverty is said to occur when such amenities cannot be secured up to a socially- and physically- necessitated level. Millions of people across the world suffer from energy poverty due to a combination of financial, social and technical circumstances. Energy Poverty and Vulnerability provides novel and critical perspectives on the drivers and consequences of energy-related injustices in the home. Drawing together original research conducted by leading experts, the book offers fresh and innovative insights into the ways in which hitherto unexplored factors such as cultural norms, environmental conditions and household needs combine to shape vulnerability to energy poverty. Case studies from a wide range of countries are presented, thus providing the first globally-integrated account of a policy and research domain that has previously been divided between the Global South and North. An examination of the diverse manifestations of energy poverty is supplemented by an identification of this condition's shared and context-specific causes. Conveying policy-relevant insights that can inform decision-making, this book can be of great interest to students and scholars of energy demand, social justice, and sustainability transitions, as well as decision-makers and practitioners who wish to find out more about this complex issue.
