**Sommario/riassunto**

---

Using recent research on development projects around the world, this book argues that culture has become an explicit tool and framework for development discourse and practice. Providing a theoretical and empirically informed critique, this informative book includes conceptual overviews and case studies on topics such as:development for indigenous peoplesnatural resource managementsocial capital and global markets for Third World musicpost-apartheid South Africacultural difference in the USA's late capitalism. The edit
