

1. Record Nr.	UNINA9910766881003321
Titolo	Brain Tumors : A Pocket Guide // Nimish A. Mohile and Alissa A. Thomas, editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2024] ©2024
ISBN	3-031-41413-6
Edizione	[First edition.]
Descrizione fisica	1 online resource (289 pages)
Disciplina	616.99481
Soggetti	Brain - Tumors
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Malignant Gliomas -- Diffuse Astrocytoma -- Oligodendroglioma -- . Diffuse Midline Glioma -- Meningioma -- Primary Central Nervous System Lymphoma -- Medulloblastoma -- Ependymal Tumors -- Brain Edema and Corticosteroid Toxicity -- Tumor-related epilepsy -- Treatment and Prevention of Venous Thrombo-embolism -- Management of Neurocognitive Symptoms -- Chemotherapy-related toxicities and management -- Radiation-related toxicities and management -- Neurosurgical Complications in Brain Tumor Patients -- Treatment of Older Patients with Brain Tumors -- Palliative care.
Sommario/riassunto	This concise book serves as a practical primer for the care of patients with primary brain tumors. Divided into two major sections, the first provides chapters with key information for each major brain tumor type. This includes basic information about etiology, epidemiology, clinical features, pathology, imaging, diagnostic workup, and treatment. The second section of the book features chapters that delve into supportive care management with specifics about management for each of the major conditions. This includes tumor-related epilepsy, venous thromboembolism in brain tumor patients, and corticosteroid management and toxicity. Detailed and clinically-focused information about chemotherapy regimens, dosing, monitoring, management of toxicities and patient education are also provided. Brain Tumors is a quick resource in the inpatient setting or in the clinic and educational resource to help new providers in the neuro-oncology field with the

accumulated knowledge of clinicians with practical experience. .
