

1. Record Nr.	UNINA9910766882903321
Autore	Choi Pak-Sing
Titolo	Industrial Organization : Practice Exercises with Answer Keys // Pak-Sing Choi, Eric Dunaway, and Felix Munoz-Garcia
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2023] ©2023
ISBN	3-031-38635-3
Edizione	[Second edition.]
Descrizione fisica	1 online resource (680 pages)
Collana	Springer Texts in Business and Economics Series
Disciplina	354.81150006
Soggetti	Industrial organization (Economic theory)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Preface -- Acknowledgements -- Contents -- 1 Monopoly -- Introduction -- Exercise #1.1: Monopoly with Linear CostsA -- Exercise #1.2: Monopoly with Convex CostsA -- Exercise #1.3: Monopolist with Linear Inverse Demand and Generic Cost FunctionB -- Exercise #1.4: Convex, Concave, and Linear Demand in MonopolyC -- Exercise #1.5: Maximizing Revenue or Maximizing Profit?A -- Exercise #1.6: Learning-by-Doing and Commitment in MonopolyB -- Exercise #1.7: Monopolist Serving Two Interdependent MarketsB -- Exercise #1.8: Multiplant Monopolist-IA -- Exercise #1.9: Multiplant Monopolist-IIB -- Exercise #1.10: Ramsey PricingB -- Exercise #1.11: Monopolist Serving Two Separated Markets-IA -- Exercise #1.12: Monopolist Serving Two Separated Markets-IIA -- Exercise #1.13: Geographical Price DiscriminationB -- Exercise #1.14: Two-Part PricingA -- Exercise #1.15: Monopoly Facing Entry Threats - Based on Tirole1988C -- Exercise #1.16: Multiproduct Monopoly with Economies of ScopeB -- Exercise #1.17: Vertical Differentiation and Natural MonopolyB -- Exercise #1.18: Persuasive Advertising in MonopolyB -- Exercise #1.19: Informative Advertising in MonopolyB -- Exercise #1.20: Behavior-Based Price Discrimination in Monopoly - Based on Fudenberg2007 and Armstrong2007B -- 2 Simultaneous Quantity Competition -- Introduction -- Exercise #2.1: Cournot Duopoly with Symmetric CostsA -- Exercise #2.2: Cournot Duopoly - Necessary and Sufficient ConditionsB -- Exercise #2.3: Cournot Oligopoly with Three Symmetric

FirmsA -- Exercise #2.4: Cournot Oligopoly with N2 Symmetric  
 FirmsB -- Exercise #2.5: Comparing Equilibrium and Socially Optimal  
 Outputs Under Cournot CompetitionB -- Exercise #2.6: Cournot Pricing  
 Formula - DerivationA -- Exercise #2.7: Cournot Pricing Formula -  
 ApplicationA -- Exercise #2.8: Cournot Pricing Formula - Parametric  
 ExampleA.  
 Exercise #2.9: Cournot Duopoly with Asymmetric Marginal CostsA --  
 Exercise #2.10: Cournot Competition with n Firms Facing Asymmetric  
 CostsC -- Exercise #2.11: Cournot with Only One Firm Benefiting from  
 a Cost AdvantageB -- Exercise #2.12: Social Welfare with Cost-  
 Symmetric Firms Selling Heterogeneous Goods and Competing in  
 QuantitiesA -- Exercise #2.13: Cournot Competition with  
 Heterogeneous GoodsA -- Exercise #2.14: Cournot Competition with  
 N2 Asymmetric Firms Allowing for Product DifferentiationB --  
 Exercise #2.15: Cournot Competition with N2 Asymmetric Firms  
 Allowing for Product Differentiation: MergerB -- Exercise #2.16:  
 Cournot Competition with N2 Asymmetric Firms Allowing for Product  
 Differentiation: Merger IncentivesB -- Exercise #2.17: Social Welfare  
 with Cost-Asymmetric Firms Selling Heterogeneous Goods and  
 Competing in QuantitiesA -- Exercise #2.18: Entry that Reduces  
 Aggregate OutputA -- Exercise #2.19: Cournot with Asymmetric Fixed  
 CostsB -- Exercise #2.20: Can Fewer Firms Decrease Prices?B --  
 Exercise #2.21: Cournot with Equity Shares - Based on Reynolds1986B  
 -- Exercise #2.22: Cournot Competition Between a Private and a Public  
 FirmB -- Exercise #2.23: Cournot Competition Between N Private Firms  
 and a Public FirmB -- Exercise #2.24: Managerial Incentives in Cournot  
 - Based on Fershtman1987C -- Exercise #2.25: Cournot Competition  
 Under Incomplete Information-IB -- Exercise #2.26: Cournot  
 Competition Under Incomplete Information-IIC -- Exercise #2.27:  
 Cournot Competition Under Incomplete Information-IIIC -- Exercise #2.  
 28: Cournot Competition When Firms Are Asymmetrically Informed of  
 Product DifferentiationB -- Exercise #2.29: Nonlinear Pricing in  
 Oligopoly - Based on Harrison2001C -- 3 Simultaneous Price  
 Competition -- Introduction -- Exercise #3.1: Price Competition with  
 Homogeneous Products and Symmetric CostsA.  
 Exercise #3.2: Price Competition with Homogeneous Products and  
 Asymmetric CostsA -- Exercise #3.3: Price Competition with Price-  
 Matching GuaranteesB -- Exercise #3.4: Price Competition with  
 Heterogeneous Goods and Symmetric CostsA -- Exercise #3.5: Price  
 Competition with Heterogeneous Goods and Asymmetric CostsB --  
 Exercise #3.6: Price Competition with Homogeneous Goods and  
 Uncertain CostsC -- Exercise #3.7: Price Competition with  
 Heterogeneous Goods and Uncertain CostsB -- Exercise #3.8: Entry-  
 Detering PricesC -- Exercise #3.9: Using Capacity Constraints to  
 Reconcile Bertrand and Cournot ModelsC -- Exercise #3.10:  
 Generalized Hotelling ModelA -- Exercise #3.11: Hotelling Model of  
 Horizontal Product DifferentiationA -- Exercise #3.12: Hotelling with  
 Asymmetric Transportation CostsB -- Exercise #3.13: Socially Optimal  
 Location in Hotelling ModelB -- Exercise #3.14: Hotelling with Non-  
 uniformly Distributed Consumers.C -- Exercise #3.15: Salop Circle of  
 Horizontal Product DifferentiationB -- Exercise #3.16: Horizontal  
 Differentiation in Two Dimensions, Based on Irmean1998C -- Exercise  
 #3.17: Vertical Differentiation, Quality Choice, and Price CompetitionB  
 -- Exercise #3.18: Products Horizontally and Vertically DifferentiatedC  
 -- 4 Sequential Competition -- Introduction -- Exercise #4.1:  
 Stackelberg Competition with Two Symmetric FirmsA -- Exercise #4.2:  
 Stackelberg Competition with Three Symmetric FirmsB -- Exercise #4.3:  
 Stackelberg Competition with Two Asymmetric FirmsB -- Exercise #4.4:

Stackelberg Competition, General PresentationC -- Exercise #4.5: Stackelberg Competition Between a Private Leader and a Public FollowerB -- Exercise #4.6: Stackelberg Competition Between a Public Leader and a Private FollowerB -- Exercise #4.7: Stackelberg Competition Under Incomplete Information - Uninformed LeaderB. Exercise #4.8: Stackelberg with Demand Shocks, Based on Liu2005B -- Exercise #4.9: Stackelberg Competition Under Incomplete Information - Uninformed FollowerC -- Exercise #4.10: Hybrid Competition - Leader Choosing Output and Follower Choosing PriceB -- Exercise #4.11: Stackelberg Competition with  $m$  Leaders, Based on Huck2001C -- Exercise #4.12: Sequential Price Competition with Homogeneous GoodsA -- Exercise #4.13: Sequential Price Competition with Heterogeneous GoodsB -- Exercise #4.14: Committing in Prices or Quantities, Based on Singh1984B -- Exercise #4.15: Strategic Pre-commitment by Only One Firm Followed by Cournot Competition, Based on Fudenberg1984B -- Exercise #4.16: Strategic Pre-commitment by Only One Firm Followed by Bertrand CompetitionB -- Exercise #4.17: Strategic Pre-commitment by Both FirmsB -- 5 Regulating Imperfectly Competitive Markets -- Introduction -- Exercise #5.1: Regulating a Monopolist Under Complete InformationA -- Exercise #5.2: Regulating a Polluting MonopolyB -- Exercise #5.3: Regulating a Monopolist Under Complete Information - Pigouvian EPAA -- Exercise #5.4: Regulating a Natural MonopolistA -- Exercise #5.5: Regulating a Monopolist Under Incomplete Information-IB -- Exercise #5.6: Regulating a Monopolist Under Incomplete Information-IIC -- Exercise #5.7: Regulating a Cournot OligopolyA -- Exercise #5.8: Regulating a Polluting Cournot OligopolyB -- Exercise #5.9: Regulating a Polluting Cournot Oligopoly Under Complete Information - Pigouvian EPAB -- Exercise #5.10: Regulating Polluting Firms That Compete à la StackelbergB -- Exercise #5.11: Endogenous Entry DecisionsB -- Exercise #5.12: Tax Incidence in MonopolyC -- 6 R&D -- D Incentives -- Introduction -- Exercise #6.1: Incentives to Innovate Under MonopolyA -- Exercise #6.2: Quantity Competition: More Incentives to Innovate Than Under Monopoly?B. Exercise #6.3: Price Competition: Less Incentives to Innovate Under Monopoly?B -- Exercise #6.4: Larger R&D Under Monopoly or Duopoly? Welfare EvaluationC -- Exercise #6.5: More Competitive Industries and R&D InvestmentC -- Exercise #6.6: Research Joint Ventures in R&D -- DB -- Exercise #6.7: Research Joint Ventures in R&D When Firms Compete in PricesB -- Exercise #6.8: Spillover Effects in R&D InvestmentB -- Exercise #6.9: Two Firms Sequentially Developing New ProductsB -- Exercise #6.10: Green Innovation, Based on Lambertini2017C -- Exercise #6.11: Incentives to Innovate in Cournot, Based on Delbono1991C -- Exercise #6.12: Cost-Reducing Investments That Accommodate EntryB -- Exercise #6.13: Cost-Reducing Investments That Deter EntryB -- Exercise #6.14: Is Entry Deterrence Profitable?B -- Exercise #6.15: Optimal Patent Length, Based on Takalo2001C -- Exercise #6.16: Optimal Patent Length, An ApplicationB -- 7 Mergers -- Introduction -- Exercise #7.1: Mergers Between Two FirmsA -- Exercise #7.2: Mergers Between  $n \geq 2$  Firms, Based on Salant1983B -- Exercise #7.3: Unsustainable MergersA -- Exercise #7.4: Bertrand Mergers with Differentiated ProductsB -- Exercise #7.5: Cournot Mergers with Differentiated Products and Symmetric CostsB -- Exercise #7.6: Cournot Mergers with Differentiated Products and Asymmetric Costs, Based on Gelves2014C -- Exercise #7.7: Cartels with SynergiesB -- Exercise #7.8: Merger to Gain Economies of ScopeB -- Exercise #7.9: Merger to Gain Stackelberg LeadershipB -- Exercise #7.10: Merger

Between a Leader and Follower, Based on Huck2001C -- Exercise #7.  
11: The "Tragedy of the Anticommons," Heller1998B -- Exercise #7.  
12: Mergers in Polluting Markets, Based on Fikru2016C -- 8 Collusion  
-- Introduction -- Exercise #8.1: Collusion with Two Firms Competing  
à la CournotB.  
Exercise #8.2: Collusion with n Firms Competing à la CournotC.
