Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (XV, 353 p. 313 illus.)
Disciplina	005.4/46
Soggetti	Apple computers Operating systems (Computers) Apple and iOS Operating Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1: Introduction to Mac. Chapter 2: macOS management settings and reinstallation process. Chapter 3: Applications and Utilities -- Chapter 4: Configurations and Troubleshooting -- Chapter 5: Troubleshooting in macOS and Ventura OS Overview. Chapter 6: Introduction to Jamf and Apple Enterprise Management -- Chapter 7: Automation.
Sommario/riassunto	If you are new to the Apple macOS ecosystem and want to get started using it for your enterprise, this is the book for you. You will learn how to navigate the Mac operating system, including an introduction to macOS and its fundamentals, management settings, reinstallation process, and usability. The book also provides tutorials which can be used for troubleshooting networks, configuration, and to ease Windows users' transition to the Mac world. Additionally, it provides detailed information about managing Mac devices using Jamf Pro within organizations, as well as basic and advanced automation scripting. By the time you finish Apple Enterprise Management, you will have a detailed understanding of macOS and its functionality, how to manage Mac devices for enterprise use, and the role Jamf Pro plays in managing and securing Mac devices effectively while providing a seamless user

experience. You will:

- Perform administrative tasks on macOS devices
- Implement macOS in an enterprise setting
- Understand the differences between various operating systems, particularly macOS and Windows
- Manage network configuration and its services
- Manage Apple macOS devices using Jamf Pro, a stable, robust, and renowned enterprise mobility management tool
- Get started with Bash (shell) scripting to automate tasks.
