

1. Record Nr.	UNINA9910766898003321
Autore	Wang Jianqiang <1957->
Titolo	The Intelligent Safety of Automobile // by Jianqiang Wang, Bingbing Nie, Hong Wang
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2024
ISBN	981-9963-99-0
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (VII, 666 p. 381 illus., 311 illus. in color.)
Collana	Key Technologies on New Energy Vehicles, , 2662-2939
Disciplina	629.276
Soggetti	Engines Automotive engineering Transportation engineering Traffic engineering Engine Technology Automotive Engineering Transportation Technology and Traffic Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Chapter I Introduction -- Chapter II System Safety -- Chapter III Driving Safety -- Chapter IV Intelligent Protection -- Chapter V Testing and Evaluation for Vehicle Safety -- Chapter VI Prospects for ISV Technology.
Sommario/riassunto	The book expounds the current research and development trend of intelligent safety technology of automobile, and analyzes and excavates the new safety technology to the automobile. It introduces the basic theory, core method, key technology, main system, test evaluation and innovation practice of intelligent safety of automobile for readers, providing a certain theoretical and practical basis for the safety development of the automobile. This book is elaborated from the perspective of the driver-vehicle-road system. The traffic accidents are divided into three stages for discussion: before, during and after the collision. This book constructs a new systematic structure for Safety theory and technical system of several key links, including system safety, operation safety, intelligent protection and safety evaluation. It will be a useful reference for researchers and practitioners in the field

of automobile engineering and auto pilot.
