

1. Record Nr.	UNINA9910767502703321
Titolo	Complications in Kidney Transplantation : A Case-Based Guide to Management // edited by Fahad Aziz, Sandesh Parajuli
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	3-031-13569-5
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (454 pages)
Collana	Medicine Series
Disciplina	617.4610592
Soggetti	Nephrology Trasplantament renal Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Obesity in Kidney Transplant Recipients -- Kidney Transplantation in the Polycystic Kidney Disease: When to Perform Native Nephrectomies -- Surgical Challenges in Kidney Re-transplantation -- Dual Kidney Transplantation -- Assessing Risk Before Kidney Transplantation: Does Frailty Matter? -- A Patient with CFH Mutation -- Deceased Donor with Multiple Arteries -- Donor with a History of Nephrolithiasis -- Case of Marginal Living Kidney Donor -- Living Kidney Donor with Family History of Kidney Disease -- Kidney Grafts with Evidence of Microthrombi in Glomerular Capillaries -- Arterial Dissections -- Challenges in Recognition, Repair, and Reconstruction -- Page Kidney after Kidney Biopsy -- Prolonged Kidney Delayed Graft Function: Switching to Belatacept -- A Case of Denovo Membranous Nephropathy in the Transplanted Kidney -- Post-Operative Complications Urine Leak -- Post-Kidney Transplant Lymphocele -- Transplant Renal Artery Stenosis -- Hydronephrosis -- Management of Post-Kidney Transplantation Ureteral Stricture -- Mycotic Pseudoaneurysms -- COVID-19 and Kidney Transplantation: An Approach to Acute Rejection in a Kidney Transplant Recipient with SARS-Cov-2 Infection -- Disseminated Histoplasmosis After Kidney Transplantation -- Post-Transplant Progressive Multifocal Leukoencephalopathy Secondary to JC Polyomavirus -- Central Nervous System Aspergillosis in a Kidney

Transplant Recipient -- A Case of West-Nile Virus Infection in a Kidney Transplant Recipient -- Early Post Transplant Intracerebral Bacillary Angiomatosis -- BK Virus Nephropathy and Rejection -- Concomitant BK Polyoma Virus and Cytomegalovirus Infection in a Kidney Transplant Recipient -- Successful Management of Complex Primary Cytomegaloviral Disease Utilizing a Standardized Multimodal Approach -- Beyond Transplantation: Urinary Infectious Complications and Malignancy Risk in Autosomal Dominant Polycystic Kidney Disease -- Disseminated Cryptococcal Infection in Kidney Transplant Recipients -- Pulmonary Nocardiosis Post-Kidney Transplantation -- Post-Transplant Adenovirus Infection -- Post-Transplant Parvovirus B19 Infection -- Checkpoint Inhibitors in Kidney Transplant Recipients and the Potential Risk of Rejection -- Angiotensin Type 1 Receptor Antibody-Mediated Rejection in a Kidney Transplant Recipient -- Donor-Derived Cell-Free DNA -- Isolated Vascular Lesions in Renal Allograft Biopsy: How Do I Treat It? -- Post-Transplant Idiopathic Immune Complex Glomerulonephritis -- Recurrent Thrombotic Microangiopathy in a Kidney Transplant Recipient -- Iga Nephropathy Post-Kidney Transplantation -- C1q Nephropathy in Kidney Transplant Recipients -- Vitamin-C Induced Oxalate Nephropathy in Kidney Transplant Recipient -- Recurrent Heavy Proteinuria and Focal Segmental Glomerulosclerosis Post-Kidney Transplant -- Early Complications Following Kidney Allograft Biopsy -- Post-Transplant Lymphoproliferative Disorder: Overview -- Post-Transplant Lymphoproliferative Disorders: Management -- Central Nervous System Post-Transplant Lymphoproliferative Disorder after Kidney Transplantation -- A Case of Early EBV Negative Kidney Allograft Limited Post-Transplant Lymphoproliferative Disorder -- Renal Cell Carcinoma in Kidney Transplant Recipients -- Post-transplant Erythrocytosis in Kidney Transplant Recipients -- Tacrolimus-Induced Serositis -- Arteriovenous Fistula Associated High Output Heart Failure after Kidney Transplantation: Initial Workup -- High Output Heart Failure due to Arteriovenous Fistula in a Kidney Transplant Patient: Management -- Aneurysmal Arteriovenous Fistula in Patients with Kidney Transplant -- Superior Vena Cava Syndrome due to Long Term Central Venous Catheter -- Venous Access Issues in Kidney Transplant Recipients -- Post-Transplant Iliac Venous Thrombosis -- Pregnancy in Kidney Transplant Recipients -- Post-Transplant Diabetes Mellitus -- Tertiary Hyperparathyroidism Post-Renal Transplant -- Joint Replacement Surgery Comparing Patients with End-Stage Renal Disease and Post Kidney Transplant -- Obstructive Sleep Apnea in Kidney Transplant Recipient -- Transplanted Kidney Failure After Prolonged Kidney Graft Survival -- Failed Allograft due to Persistent BKV -- Retransplantation After Kidney Graft Failure due to BK Polyomavirus Nephropathy -- Sensitization after Failed Kidney Transplant -- Transplant Nephrectomy for Malignancy in the Setting of a Failing Allograft -- Graft Failure in the Elderly -- Post-Transplant Aortoiliac Aneurysms -- Dialysis Associated Steal Syndrome (DASS).

Sommario/riassunto

This textbook of clinical cases moves beyond the science of transplant medicine and covers important transplant nephrology concepts. This book covers the diagnosis and treatment of many typical and atypical immunological and infectious post-transplant complications, such as acute antibody-mediated rejection in early and late post-transplant period, post-transplant cytomegalovirus infections, congestive heart failure after kidney transplant, and many other typical and atypical post-transplant infections. In each chapter, a case scenario is given for important post-transplant complications. The scenario is followed by a question and answer on the best investigation, the diagnosis, and a

discussion of the best treatment option and outcomes. This stepwise learning process makes this book uniquely helpful to trainees learning how to treat their complicated transplant recipients systematically. This book is an accurate and straightforward guide to assist future and current transplant physicians, as well as the primary care physicians who deal with these complicated patients every day.
