

1. Record Nr.	UNINA9910767561103321
Autore	Vandycke Nancy <1969->
Titolo	Sustainable mobility in a fast-changing world : from concept to action. // Nancy Vandycke, Jose M. Viegas
Pubbl/distr/stampa	Cham, Switzerland : , : Palgrave Macmillan, , [2022] ©2022
ISBN	9783031089619 3-031-08961-8
Descrizione fisica	1 online resource (188 pages)
Collana	Sustainable Development Goals Series
Disciplina	605
Soggetti	Mobilitat sostenible Sustainable transportation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Acknowledgments -- Praise for Sustainable Mobility in a Fast-Changing World -- Contents -- About the Authors -- Abbreviations -- List of Figures -- List of Tables -- 1 Preface -- Notes -- References -- Part I The Urgent Need for a New Approach -- 2 Key Trends Shaping the Future of Mobility -- 2.1 A New Political Ambition -- 2.2 Hyper Digitalization (Data and Technology) -- 2.3 A New Governance Paradigm -- 2.4 Equity and Inclusion -- Notes -- References -- 3 From Sustainable Development Goals to Sustainable Mobility -- 3.1 Setting the Ambition High for the Well-Being of Humankind -- 3.2 Linking Transport with the SDG Framework -- 3.2.1 Universal (Equitable) Access -- 3.2.2 System Efficiency -- 3.2.3 Safety -- 3.2.4 Green Mobility -- 3.3 Toward a Shared Definition for Sustainable Mobility -- Notes -- References -- 4 The Power of Data and New Technologies -- 4.1 A High-Tech, Data-Driven Future -- 4.2 The Impact of Hyper Digitalization on Transport -- 4.2.1 More Real-Time Data-Velocity and Volume -- 4.2.2 Availability of New Sources-Variety -- 4.2.3 Lower Costs-Volume, Variety, and Veracity -- 4.2.4 Efficiencies and Insights-Value -- 4.3 The Digital Divide and Transport -- 4.4 Immediate and Future Data Needs: Data Sharing and Partnerships -- Notes -- References -- 5 A New Governance Paradigm -- 5.1 Globalization and the Expanding Scope of Transport Governance -- 5.2 Participatory

Government and Citizen Engagement -- 5.3 Devolution and Decentralization -- 5.4 Implications for Transport Policy -- Notes -- References -- 6 Toward More Equitable and Inclusive Transport -- 6.1 Equity and Inclusion in Transport Design and Practice -- 6.2 Known Equity Gaps-Understanding Structural Barriers to Access -- 6.3 Implications for More Inclusive Transport and Mobility -- Notes -- References.

Part II A New Approach to Policy-Making on Transport and Mobility -- 7 A Systemic Approach to Transport and Mobility -- 7.1 The Modern Transport System and Risks -- 7.1.1 Interoperability -- 7.1.2 Interdependency -- 7.1.3 Risk and Resilience -- 7.2 Three Critical Risks to the Modern Transport System -- 7.2.1 Climate Change and Extreme Weather Events -- 7.2.2 Failure of Information and Telecommunication (ICT) System Risks, Including Cyber-Security, and Other Natural Phenomena -- 7.2.3 Global Pandemic -- 7.3 Resilience of the Transport System -- Notes -- References -- 8 Responding to Changing Dynamics with a New Path Forward: Sustainable Mobility for All -- 8.1 The Imperative for a New Coalition in Transport -- 8.2 The Sustainable Mobility for All Umbrella -- 8.2.1 Working-Level Principles -- 8.3 A Systematic Approach Toward Improved Decision-Making in Transport -- 8.3.1 Translating the SDGs Framework for Transport -- 8.3.2 Establishing the Imperative for Action -- 8.3.3 Crowdsourcing Policy Knowledge -- 8.3.4 Designing a Coherent Framework for Country Action -- 8.3.5 Identifying the Country Path Toward Sustainable Mobility -- 8.3.6 Piloting and Demonstration Projects -- 8.4 How the New Approach and Tools Responded to the Four Dynamics -- Notes -- References -- 9 Defining the Playing Field: The Global Tracking Framework -- 9.1 Setting the Four-Goal Vision for Sustainable Mobility -- 9.1.1 Universal (Equitable) Access -- 9.1.2 Efficiency -- 9.1.3 Safety -- 9.1.4 Green Mobility -- 9.2 Global Tracking Framework for Transport -- 9.2.1 Universal Access -- 9.2.2 Efficiency -- 9.2.3 Safety -- 9.2.4 Green Mobility -- 9.3 Sustainability Gap Analysis -- 9.4 Global Sustainable Mobility Composite Score -- 9.5 Country Diagnostic on Sustainable Mobility -- 9.5.1 Country Performance Benchmarking -- 9.5.2 Sustainability Gap Analysis -- 9.5.3 Drill-Down Analysis. 9.6 Conclusion -- 9.6.1 Next Steps for the GTF -- 9.6.2 How the Innovative Approach and Tool Responded to the Four Dynamics -- Annex 9.A: Global Tracking Framework for Transport -- Notes -- References -- 10 Building a Global Policy Knowledge Collective: The Catalogue of Policy Measures toward Sustainable Mobility -- 10.1 A Unique Crowdsourcing Effort -- 10.2 Catalogue of Policy Measures -- 10.3 Conclusion -- 10.3.1 How the Approach and Tool Responded to the Four Dynamics -- Annex 10.A: The Catalogue of Policy Measures Toward Sustainable Mobility -- Notes -- References -- 11 Priming for Coherent Country Action: Prototype and Country Action Plans -- 11.1 Policy Measure Evaluation -- 11.1.1 Criteria 1-Impact on Each of the Four Policy Goals -- 11.1.2 Criteria 2-Country Relevance -- 11.1.3 Criteria 3-Resilience -- 11.2 Prototype Action Plan -- 11.2.1 Selection Algorithm of Policy Measures -- 11.2.2 Booster-Conditional -- 11.3 Developing the Country Action Plan -- 11.3.1 Policy-By-Policy Analysis Assessment -- 11.3.2 In-Country Calibration -- 11.4 Conclusion -- 11.4.1 How the New Approach and Tools Responded to the Four Trends -- Annex 11.A-Selection Algorithm of Policy Measures -- Step 1: Determination of Country Group for Each Policy Goal -- Step 2: Impact of Measures on Policy Goal and Country Group -- Step 3: Aligning Policy Measures to Overall Country Goals -- Appendix 11.B-Action Plan Booster (Conditional), an Extension

of the Selection Algorithm -- Phase 1: Transport Market Segment Performance Assessment -- Phase 2: Action Plan Booster Measures -- On Transport Market Segments -- Notes -- References -- 12 From Methodology to Implementation: The Case of South Africa -- 12.1 The Rapidly Evolving Context -- 12.2 Country Diagnostic on Sustainable Mobility -- 12.2.1 Sustainability Gap Analysis -- 12.2.2 Complementary Drill-Down Analysis. 12.2.3 Prioritizing Mobility System Issues -- 12.3 Country Action Plan on Sustainable Mobility -- 12.3.1 Country Engagement Track 1: Policy-By-Policy Analysis Assessment -- 12.3.2 Country Engagement Track 2: In-Country Calibration -- 12.3.3 Country Engagement Conclusions -- Annex 12.A: South Africa-Mobility Performances -- Annex 12.B: South Africa's Prototype Action Plan -- Notes -- References -- 13 The Next Frontier of Mobility -- 13.1 Meeting the Need for a New Approach to Transport Decision-Making -- 13.2 The Future of the Movement -- 13.3 Country Support Beyond Existing Tools -- 13.4 Closing Thoughts -- Notes -- References -- Index.
