

1. Record Nr.	UNINA9910768172303321
Titolo	Fourier Analysis : Pseudo-differential Operators, Time-Frequency Analysis and Partial Differential Equations // edited by Michael Ruzhansky, Ville Turunen
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Birkhäuser, , 2014
ISBN	3-319-02550-3
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (416 p.)
Collana	Trends in Mathematics, , 2297-024X
Disciplina	515 515.2433 515/.7242
Soggetti	Differential equations Global analysis (Mathematics) Manifolds (Mathematics) Operator theory Harmonic analysis Sequences (Mathematics) Functions of real variables Differential Equations Global Analysis and Analysis on Manifolds Operator Theory Abstract Harmonic Analysis Sequences, Series, Summability Real Functions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Preface -- Contributions by N. Bez, M. Sugimoto, Tang Bao Ngoc Bui, M. Reissig, F. Colombini, D. Del Santo, F. Fanelli, G. Metivier, E. Cordero, F. Nicola, L. Rodino, S. Coriasco, K. Johansson, J. Toft, V. Fischer, M. Ruzhansky, G. Garelli, A. Morando, D. Grieser, E. Hunsicker, N. Habal, W. Rungtongthep, B -- W. Schulze, C. Iwasaki, B. Kanguzhin, N. Tokmagambetov, S. Katayama, H. Kubo, M. Lassas, T. Zhou, T.

Matsuyama, T. Nishitani, S. Serovajsky, K. Shakenov, S. Tikhonov, M. Zeltser, Y. Wakasugi, K. Yagdjian. .

Sommario/riassunto

This book is devoted to the broad field of Fourier analysis and its applications to several areas of mathematics, including problems in the theory of pseudo-differential operators, partial differential equations, and time-frequency analysis. This collection of 20 refereed articles is based on selected talks given at the international conference “Fourier Analysis and Pseudo-Differential Operators,” June 25–30, 2012, at Aalto University, Finland, and presents the latest advances in the field. The conference was a satellite meeting of the 6th European Congress of Mathematics, which took place in Krakow in July 2012; it was also the 6th meeting in the series “Fourier Analysis and Partial Differential Equations.”
