

1. Record Nr.	UNINA9910780660303321
Titolo	Dictionary of Prince Edward Island English / / edited by T. K. Pratt
Pubbl/distr/stampa	Toronto, [Ontario] ; ; Buffalo, [New York] ; ; London, [England] : , : University of Toronto Press, , 1996 ©1988
ISBN	1-4426-7389-3 9786611997519 1-281-99751-X
Descrizione fisica	1 online resource (225 p.)
Disciplina	427/.9717
Soggetti	Canadianisms - Prince Edward Island Popular culture - Prince Edward Island Dictionaries. Electronic books. Prince Edward Island
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Contents -- Acknowledgements -- The Scope of the Dictionary -- The Making of the Dictionary -- Guide to the Dictionary -- Dictionaries Consulted -- Abbreviations -- Pronunciation Key -- Dictionary of Prince Edward Island English -- A -- B -- C -- D -- E -- F -- G -- H -- I -- J -- K -- L -- M -- N -- O -- P -- Q -- R -- S -- T -- U -- V -- W -- Y -- Z -- The Dictionary in Profile -- Bibliography
Sommario/riassunto	Strupac, fornenst, trappy, scriss, kippy, snool, flying axehandles, from across - these and hundreds of other fascinating and colourful words and phrases give the English language as it has been spoken in Canada's smallest province a flavour all its own. With the Dictionary of Prince Edward Island English, T.K. Pratt makes a major scholarly contribution to the growing list of regional dictionaries that enable us to discover the rich heritage of the language as spoken throughout North America; at the same time it offers a splendid general introduction to the historical and sociological life of the island. There are approximately 1000 entries of non-standard or dialect words, past

and present. The notes deal with usage, pronunciation, alternate forms and spellings, and stylistic and regional labels. Entries include definitions, supportive "ations from P.E.I. sources, editorial notes about various subtleties, and dictionary notes which provide links to some thirty-five other dictionaries. Pratt's introduction defines the criteria for inclusion of words, explains his research methods, and outlines the layout of entries. The end matter includes a bibliography and an important sociolinguistic essay, 'The Dictionary in Profile,' which places the work in the broader context of Prince Edward Island speech. Its range and depth of coverage make this an essential work not only for those concerned with P.E.I. and Maritimes studies, but for all those interested in the regional usage of English.

Proof theory  
Nonassociative rings  
Algebra, Homological  
Topological groups  
Lie groups  
Differential equations  
Proof Theory and Constructive Mathematics  
Non-associative Rings and Algebras  
Category Theory, Homological Algebra  
Topological Groups and Lie Groups  
Differential Equations  
Àlgebres no associatives  
Llibres electrònics

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Quandles, knots, quandle rings and graphs (Elhamdadi) -- New splittings of operations of Poisson algebras and transposed Poisson algebras and related algebraic structures (Bai) -- Some varieties of loops (Bol-Moufang and non-Bol-Moufang types) (Sòlárìn) -- The 3-graded extension of the Poincaré algebra (Kerner) -- Ternary Leibniz color algebras and beyond (Bakayoko) -- (Hom-)(co)associative ternary (co)algebras and infinitesimal ternary (hom-)bialgebras (Hounkonnou) -- Elduque-Myung type mutations of Hom-algebras (Silvestrov) -- (Hom-) -generalizedWitt algebras (Hounkonnou) -- Some algebraic properties of representations of polynomial covariance commutation relations (Silvestrov) -- Applications of Quasigroups in Cryptography and Coding Theory (Trpcheska) -- Generalized quadratic quasigroup functional equations (Krapež) -- A Primer on Noncommutative Classical Dynamics on Velocity Phase Space and Souriau Formalism (Guha).
Sommario/riassunto	This book gathers invited, peer-reviewed works presented at the 2021 edition of the Classical and Constructive Nonassociative Algebraic Structures: Foundations and Applications—CaCNAS: FA 2021, virtually held from June 30 to July 2, 2021, in dedication to the memory of Professor Nebojša Stevanovi (1962-2009). The papers cover new trends in the field, focusing on the growing development of applications in other disciplines. These aspects interplay in the same cadence, promoting interactions between theory and applications, and between nonassociative algebraic structures and various fields in pure and applied mathematics. In this volume, the reader will find novel studies on topics such as left almost algebras, logical algebras, groupoids and their generalizations, algebraic geometry and its relations with quiver algebras, enumerative combinatorics, representation theory, fuzzy logic and foundation theory, fuzzy algebraic structures, group amalgams, computer-aided development and transformation of the theory of nonassociative algebraic structures, and applications within natural sciences and engineering. Researchers and graduate students in algebraic structures and their applications can hugely benefit from this book, which can also interest any researcher exploring multi-disciplinarity and complexity in the scientific realm.
