Nota di contenuto	ew Media Arts – the Thinking Space for Digitality -- Pick my brain: Thoughts on anatomical representations of the human inner body from renaissance, baroque paintings, and book illustrations of the Modern Age to current medical imaging visualizations -- A Framework of Networked Art as a Diagram that is an Image as a Map that is a Plan and that is a Space as a Territory. .
Sommario/riassunto	This book of 21 chapters shares endeavors associated to the human trait of creative expression within, across, and between digital media in wide-ranging contexts making the contents perfect as a course study book uptake within related educations. Globally located chapter authors share their comprehensive artisan perspectives from works associated with regional cultures, diversities of interpretations, and widespread scopes of meanings. Contents illustrate contemporary works reflecting thought-provoking comprehensions, functions, and purposes, posit as contributing toward shifting of boundaries within

the field. Original to this approach is the reflective offerings on creating digitally beyond typical psychological analysis/rapportage. The book's general scope and key uses are thus to contribute to scholarly discussions toward informing future projects by having an intended wide readership including from within educations, to artisans, and wider interested public. Chapter 7 is available open access under a Creative Commons Attribution 4.0 International License via link. [springer.com](https://www.springer.com).
